one of the most influential institutions of higher learning in the world the university of chicago has a powerful and distinct identity and its name is synonymous with intellectual rigor with nearly 170 000 alumni living and working in more than 150

countries its impact is far reaching and long lasting with the university of chicago a history john w boyer dean of the college since 1992 presents a deeply researched and comprehensive history of the university boyer has mined the archives exploring the school s complex and sometimes controversial past to set myth and hearsay apart from fact the result is a fascinating narrative of a legendary academic community one that brings to light the nature of its academic culture and curricula the experience of its students its engagement with chicago s civic community and the conditions that have enabled the university to survive and sustain itself through decades of change boyer s extensive research shows that the university of chicago s identity is profoundly interwoven with its history and that history is unique in the annals of american higher education after a little known false start in the mid nineteenth century it achieved remarkable early successes yet in the 1950s it faced a collapse of undergraduate enrollment which proved fiscally debilitating for decades throughout the university retained its fierce commitment to a distinctive intense academic culture marked by intellectual merit and free debate allowing it to rise to international acclaim today it maintains a strong obligation to serve the larger community through its connections to alumni to the city of chicago and increasingly to its global community published to coincide with the 125th anniversary of the university this must have reference will appeal to alumni and anyone interested in the history of higher education of the united states

in the years since the new mobilities paradigm burst onto the social scientific scene scholars from various disciplines have analyzed the social cultural and political underpinnings of transport contesting its long dominant understandings as defined by engineering and economics still the vast majority of mobility studies and even key works that mention the good life and its dependence on the car fail to consider mobilities in connection with moral theories of the common good in assembling moral mobilities nicholas a scott presents novel ways of understanding how cycling and driving animate urban space place and society and investigates how cycling can learn from the ways in which driving has become invested with moral value by jointly analyzing how driving and cycling reassembled the good city between 1901 and 2017 with a focus on various cities in canada in detroit and in oulu finland scott confronts the popular notion that cycling and driving are merely antagonistic systems and challenges social scientific research that elides morality and the common good instead of pitting bikes against cars assembling moral mobilities looks at five moral values based on canonical political philosophies of the common good and argues that both cycling and driving figure into larger more important moral assemblages of mobility finally concluding that the deeper meta lesson that proponents of cycling ought to take from driving is to focus on ecological responsibility equality and home at the expense of neoliberal capitalism scott offers a fresh perspective of mobilities and the city through a multifaceted investigation of cycling informed by historical lessons of automobility

the politically conservative educators of world war ii dramatically and rapidly altered policies programs schedules learning materials classroom activities and the content of academic courses they motivated students to salvage materials sell war stamps grow crops learn about wartime issues and take pride in patriotism they prepared millions of people for the armed services and the defense industries these accomplishments were possible because the educators were supported by an unprecedented alliance that included teachers school administrators industrialists military personnel government leaders and the president himself after the war conservative educators continued to portray themselves as home front warriors waging a life threatening battle against enduring global dangers a terrified public accepted this depiction and continued to back them for decades
