this book draws on recent developments in research on ferdinand de saussure s general linguistics to challenge the structuralist doctrine associated with the posthumous course in general linguistics 1916 and to develop a new philosophical interpretation of saussure s conception of language based solely on authentic source materials this project follows two new editorial paradigms 1 a critical re examination of the 1916 course in light of the relevant sources and 2 a reclamation of the historically authentic materials from saussure s nachlass some of them recently discovered in stawarska s book this editorial paradigm shift serves to expose the difficulties surrounding the official saussurean doctrine with its sets of oppositional pairings the signifier and the signified la langue and la parole synchrony and diachrony the book therefore puts pressure not only on the validity of the posthumous editorial redaction of saussure s course in general linguistics in the course but also on its structuralist and post structuralist legacy within the works of levi strauss lacan and derrida its constructive contribution consists in reclaiming the writings from saussure s nachlass in the service of a linguistic phenomenology which intersects individual expression in the present with historically sedimented social conventions stawarska develops such a conception of language by engaging saussure s own reflections with relevant writings by hegel husserl roman jakobson and merleau ponty finally she enriches her philosophical critique with a detailed historical account of the material and institutional processes that led to the ghostwriting and legitimizing the course as official saussurean doctrine

the book of revelation can be read in various ways where interpretation opts not to venture beyond revelation or approach the book as a forecast of end time events it typically favours either going behind the text in search of a socio historical context of origin to which it might refer or else standing in front of the text and investigating the book s reception history or its present relevance and impact comparatively little interpretative work has been undertaken inside the text exploring the mechanics of how revelation works still less how its complex parts might fit together into a meaningful whole gordon campbell considers revelation to be a coherent narrative composition that draws its hearer or reader into its text world in reading revelation a thematic approach campbell gives an innovative account of revelation s sophisticated thematic content mindful of revelation s narrative verve or its architecture en mouvement as jacques ellul once put it campbell plots a series of thematic trajectories through the book on this reading parody and parallelism fundamentally shape the whole narrative as a first ever integrated account of revelation s macro themes reading revelation makes an important contribution to revelation scholarship in its light the book may justifiably be seen as the crowning achievement of the scriptures
