indian economy on the eve of independence on the eve of india s independence in 1947 the indian economy was predominantly agrarian with agriculture contributing a significant portion to the national income and employing most of the population however it was also characterized by a complex mix of colonial exploitation poverty and limited industrialization key features of the indian economy before independence agriculture dominance agriculture was the backbone of the economy employing about 70 80 of the workforce landholdings were generally small and farmers faced various challenges such as tenancy issues lack of credit and dependence on monsoons colonial legacy the british colonial rule had left a deep imprint on india s economy with policies often designed to benefit british interests industries were concentrated in a few urban centres mainly for processing raw materials for export limited industrialization india had a nascent industrial sector mostly comprising small scale industries and cottage industries major industries like textiles jute and steel were in existence but were largely underdeveloped compared to their potential trade and commerce india s trade was dominated by british interests with raw materials being exported to britain and finished goods imported back into india infrastructure such as railways and ports primarily served the purpose of facilitating colonial trade infrastructure the infrastructure was inadequate and unequally developed across regions railways though extensive were largely geared towards transporting raw materials for export rather than promoting industrial growth poverty and social issues poverty was widespread with a large population living below the poverty line social issues such as caste based discrimination and limited access to education and healthcare persisted political unrest the economy was affected by political movements and unrest against british rule which often disrupted economic activities challenges on the eve of independence economic dependence india was economically dependent on britain both in terms of trade and technology infrastructure deficit limited infrastructure development hindered economic

growth social issues poverty illiteracy and social inequality posed significant challenges industrial backwardness the industrial sector was underdeveloped leading to limited job opportunities outside agriculture in summary the indian economy on the eve of independence was characterized by its agrarian base colonial exploitation limited industrialization and significant social and economic challenges the period following independence would witness efforts to address these issues through economic planning industrialization policies and social reforms aimed at transforming india into a modern nation

economic development and urban growth are the contested grounds of urban politics business elites and politicians tend to forge pro growth coalitions centered around downtown development while progressive and neighborhood activists counter with a more balanced approach that features a strong neighborhood component urban politics is often shaped by this conflict which has intellectual as well as practical dimensions in some cities neighborhood interests have triumphed in others the pro growth agenda has prevailed in this illuminating comparative study barbara ferman demonstrates why neighborhood challenges to pro growth politics were much more successful in pittsburgh than they were in chicago operating largely in the civic arena pittsburgh s neighborhood groups encountered a political culture and institutional structure conducive to empowering neighborhood progressivism in housing and economic development policymaking in contrast the pro growth agenda in chicago was challenged in the electoral arena which was dominated by machine ward based politicians who regarded any independent neighborhood organizing as a threat consequently neighborhood demands for policymaking input were usually thwarted besides revealing why the development policies of two important american cities diverged ferman s unique comparative approach to this issue significantly expands the scope of urban analysis among other things it provides the first serious study to incorporate the civic sector neighborhood politics as an important component of urban regimes ferman also emphasizes institutional and cultural factors often ignored or relegated to residual roles in other studies and expounds on their influence in shaping local politics and policy to add an analytical and normative dimension to urban analysis she focuses on the non elite actors not just the economic and political elites who compose governing coalitions ultimately ferman takes a more holistic and balanced view of large cities than is typical for urban studies as she argues that neighborhoods are an important integral part of what cities are and can be for that reason especially her work will have a profound impact upon our understanding of urban politics
