this ground breaking analysis of the cultural trajectory of england s first colony constitutes a major contribution to

postcolonial studies offering a template relevant to most cultures emerging from colonialism at the same time these irish case studies become the means of interrogating contemporary theories of translation moving authoritatively between literary theory and linguistics philosophy and cultural studies anthropology and systems theory the author provides a model for a much needed integrated approach to translation theory and practice in the process the work of a number of important literary translators is scrutinized including such eminent and disparate figures as standish o grady augusta gregory and thomas kinsella the interdependence of the irish translation movement and the work of the great 20th century writers of ireland including yeats and joyce becomes clear expressed for example in the symbiotic relationship that marks their approach to irish formalism translation in a postcolonial context is essential reading for anyone interested in translation theory and practice postcolonial studies and irish literature during the 19th and 20th centuries

translation is a phenomenon that affects us all on a daily basis the more so now that dissemination of information is greatly enhanced by modern technology however there are no strict regulations on who can become a translator and what qualifications are required the contributors to this volume strive to find out whether translators are taught self taught or trained what the teaching or training programmes are like and how they can be improved this is a companion volume to teaching translation and interpreting challenges and practices edited by Łukasz bogucki cambridge scholars publishing 2010 it contains papers delivered at two international conferences devoted to teaching translation and interpreting organised in Łódź poland as well as invited contributions the authors are translation and interpreting scholars and teachers from leading polish and ukrainian universities

this book provides both young and senior scientists with a comparative view of current theoretical models of text production models are clearly situated in their historical context scrutinized in their further evolution with a fine grained observation of differences between models very complete and informative to read this book will be useful to people working in teaching of writing or studying this specific human activity
