the three regional economic communities recs in eastern and southern africa are the common market for eastern and southern africa comesa the east african community eac and the southern african development community sadc together they have recognised the need to work towards regional cooperation aimed at the eventual creation of a single regional economic community or tripartite free trade agreement tfta this will replace the existent recs in eastern and southern africa to which the member states of these two regions have multiple membership the tfta region comprises a total of 27 member states which have a combined population of 527 million people and a combined gross domestic product gdp of usd 624 billion these statistics translate into a potential regional economic powerhouse for eastern and southern africa one of the major goals of the tfta is to harmonise trade arrangements among the three recs improve the movement of goods and persons within the single integrated region facilitate the joint implementation of regional infrastructure projects and enhance co operation of member states this is a laudable initiative by the member states of the three recs and it is recognised that regional integration is the first step towards integration into a multilateral trading system for the tfta member states it is crucial that there is an awareness to move towards a review of domestic customs legislation and policy and to develop regional supranational legislation and regulations in order to gain a stronger competitive edge in the global market this study shies away from proposing a quick fix or instant benefit to the harmonisation of tfta member states customs legislative frameworks and policies and the development of a single automated interoperable electronic customs system rather it places its focus on long term sustainable benefits which will be realised over time the harmonisation of tfta member state customs legislative policies and the resultant information and communications technology ict reforms to the customs processes of the tfta member states though not immediate or short term will strategically position the region to conduct business in an increasingly volume driven fast paced electronic global economy

special economic zones sezs have become a permanent feature of the world trade scene this book the first to provide a critical and comprehensive analysis of sezs covering a wide spectrum of countries and regions shows how sezs albeit established at the domestic level by different countries raise multiple legal issues under international economic law this first rate book is the product of the asia fdi forum iv held in hong kong in 2018 thoroughly exploring the development of the sez phenomenon and its players the contributing authors all leading economic law experts review the issues raised by sezs in the context of international trade law international investment law and investment arbitration they identify the extent to which sezs have been coherent in their design and policymaking in particular with regard to domestic law reforms they address such aspects both core themes and specific examples as the following investment protection in china s sezs state owned enterprises regulation dispute settlement under what circumstances incentives available in sezs count as export subsidies prohibited under world trade organization wto rules compliance with internal market rules in european union eu free zones local populations as victims of land expropriation brazil s manaus free trade zone india s experience with multiple sezs the administrative approval system in the shanghai free trade zone economic corridors and transit routes as sezs refugee cities sezs for migrants how china s supreme people s court serves national strategy how foreign investors challenge free zone regimes impacts of the establishment of sezs on tax revenues sezs and labour migration and management models the chapters also include insights into the new emerging generation of international investment agreements wto accession

transparency and case law materials clarifying specific trade issues associated with sezs and new rules to protect the environment and labour rights as well as analysis of crucially significant cases such as goetz v the republic of burundi lee jong baek v kyrgyzstan and ampal american and others v egypt with its critical and comprehensive analysis of the dynamic sez phenomenon across legal economic investment regulatory and policy matrices including a thorough analysis of the success factors and required policies for sezs this book takes a giant step towards answering the question whether sezs fundamentally contradict norms of international law or whether sezs have to be considered as laboratories which facilitate the implementation of international economic policies its careful examination of theory and practice and its approach to lessons learned from case studies will reward trade and investment officials policymakers diplomats economists lawyers think tanks business leaders and others interested in this ever more important area of law and economics

the french psychoanalyst jacques lacan is one of the most influential intellectuals of the past century his work is invoked by philosophers film critics and feminist theorists but religious scholars have tended to keep their distance whilst the religious dimensions of freud and jung have been investigated exhaustively much work still needs to be done in exploring this aspect of lacan s thought lacan and religion presents students of religion and theology with a clear introduction to a famously difficult thinker the theological analysis is grounded in a solid understanding of lacan s work as a psychoanalyst whilst the book also explores how lacan s concepts can be fruitful for those who labour in what lacan called the field of the divine

winner of the 2022 naap gradiva award for best edited book in this volume internationally acclaimed psychoanalysts philosophers and scholars of humanities examine the mind body problem and provide differing analyses on the nature of mind unconscious structure mental properties qualia and the contours of consciousness given that disciplines from the humanities and the social sciences to neuroscience cannot agree upon the nature of consciousness from what constitutes psychic reality to mental properties psychoanalysis has a unique perspective that is largely ignored by mainstream paradigms this book provides a comprehensive exploration of the mind body problem in various psychoanalytic schools of thought including philosophical and metapsychological points of view psychoanalysis and the mind body problem will be of interest to psychoanalysts philosophers neuroscientists evolutionary biologists academics and those generally interested in the humanities cognitive science and the philosophy of mind
