the use of english as a global lingua franca has given rise to new challenges and approaches in our understanding of language and communication one area where elf english as a lingua franca studies both from an empirical and theoretical orientation have the potential for significant developments is in our understanding of the relationships between language culture and identity elf challenges traditional assumptions concerning the purposed inexorable link between a language and a culture due to the multitude of users and contexts of elf communication the supposed language culture and identity correlation often conceived at the national level appears simplistic and na ve however it is equally na ve to assume that elf is a culturally and identity neutral form of communication all communication involves participants purposes contexts and histories none of which are neutral thus we need new approaches to understanding the relationship between language culture and identity which are able to account for the multifarious and dynamic nature of elf communication

this is a timely book it should be mandatory reading minnesota star tribune more severe storms and rising seas will inexorably push the american coastline inland with profound impact on communities infrastructure and natural systems in a new coast jeffrey peterson draws a comprehensive picture of how storms and rising seas will change the coast peterson offers a

clear eyed assessment of how governments can work with the private sector and citizens to be better prepared for the coming coastal inundation drawing on four decades of experience at the environmental protection agency and the united states senate peterson presents the science behind predictions for coastal impacts he explains how current policies fall short of what is needed to effectively prepare for these changes and how the trump administration has significantly weakened these efforts while describing how and why the current policies exist he builds a strong case for a bold new approach tackling difficult topics including how to revise flood insurance and disaster assistance programs when to step back from the coast rather than build protection structures how to steer new development away from at risk areas and how to finance the transition to a new coast key challenges including how to protect critical infrastructure ecosystems and disadvantaged populations are examined ultimately peterson offers hope in the form of a framework of new national policies and programs to support local and state governments he calls for engagement from the private sector and local and national leaders in a campaign for a new coast a new coast is a compelling assessment of the dramatic changes that are coming to america s coast peterson offers insights and strategies for policymakers planners and business leaders preparing for the intensifying impacts of climate change along the coast
