the bell system dominated telecommunications in the united states and canada for most of the twentieth century but its monopoly was not inevitable in the decades around 1900 ordinary citizens farmers doctors small town entrepreneurs established tens of thousands of independent telephone systems stringing their own wires to bring this new technology to the people managed by opportunists and idealists alike these small businesses were motivated not only by profit but also by the promise of open communication as a weapon against monopoly capital and for protection of regional autonomy as the bell empire grew independents fought fiercely to retain control of their local networks and companies a struggle with an emerging corporate giant that has been almost entirely forgotten the people s network reconstructs the story of the telephone s contentious beginnings exploring the interplay of political economy business strategy and social practice in the creation of modern north american telecommunications drawing from government documents in the united states and canada independent telephone journals and publications and the archives of regional bell operating companies and their rivals robert macdougall locates the national debates over the meaning use and organization of the telephone industry as a turning point in the history of information networks the competing businesses represented dueling political philosophies regional versus national identity and local versus centralized power although independent telephone companies did not win their fight with big business they fundamentally changed the way telecommunications were conceived

this book first published in 1977 attempts to show mao tse tung in his relationship with the chinese people the author makes extensive use of a number of interviews with a cross section of chinese people as well as examining the written records made by foreign visitors

this is an accessible new examination of what security means today contextualizing the term amongst other key ideas such as the nation state diplomacy war and autonomy by

exploring the many differing conceptions of security this study clearly explains how the idea of security in world affairs can be understood in relation to other ideas and points of view it shows how when standing alone the word security is meaningless or just an empty term when divorced from other ideas distinctive to international life this essential new volume tackles the key questions in the debate what norms of sovereignty relate to security does security necessarily follow from the recognition of identity what sort of obligations in respect of security attach to power how far can a political arrangement of empire remedy human insecurity can trusteeship provide security in a world of legally equal sovereign states is security the guarantor of freedom this book is an excellent resource for students and scholars of security studies and politics and international relations

the inaugural title in the correlates of war series from cq press this 2 volume set catalogs every official interstate alliance signed from the peace of westphalia in 1648 through the early twenty first century ranking it among the most thorough and accessible reviews of formal military treaties ever published maps and introductions showcase the effects of alliances on the region or international system in century specific chapters while individual narratives and summaries of alliances simultaneously provide basic information such as dates and member states as well as essential insights on the conditions that prompted the agreement additionally separate and or secret articles are highlighted for additional context and interest supplementary features of this two volume set include a timeline cataloging major events in political and military history guides listing allegiances by region and by century an alphabetical treaty index maps illustrating political boundaries across the centuries international military alliances is an indispensable resource for any library serving students of law politics history and military science

academic paper from the year 2025 in the subject african studies miscellaneous grade language english abstract the invasion of africa could at best be described as the greatest tragedy to befall africa after the slave trade such invasion was described as colonialism which was planned and executed under the pretext of helping africa to grow and develop for africans lack the wherewithal to do so for themselves colonialism left africa destroyed and backwards in all spheres of nation building the invaders fell so much in love with the resources both human and material that could get without rendering account to anyone even while they left they mechanisms in place to maintain their hold of such resources

without prejudice to the good things africa in general and nigeria in particular made out of colonialism which ended years ago it is still a fact that the colonialists did not entirely leave the presence is still felt even in their absence neo colonialism therefore aims to continue the subjugation of africa and africans and nigeria in particular through well organized international organizations and agencies for the benefit of the west this work looks at this ugly phenomenon in the nigerian context and suggests some ways forward

master s thesis from the year 2014 in the subject environmental sciences grade excellent university of alexandria faculty of engineering production department course quality improvement tools and techniques being used in the analysis of an environmental problem language english abstract environmental quality is a prime concern to sustain the development of egypt solid wastes generated from human settlements are of the major environmental issues that concern and challenge egypt today swm is a crucial public service issue affecting both environment and health swm in egypt have always been and will continue to be one of the most pressing challenges facing the egyptian authorities for the coming decades unless appropriate solutions are derived the intention of this search is to implement quality improvement techniques in environmental engineering field to analyze the egyptian waste management problem and find applicable solutions according to the current situation givens the main focus is on municipal solid wastes excluding hazardous wastes from it swm problem in egypt can be summarized as the absence of a regular waste collection service waste is dumped in open spaces on access roads which are invaded by animals and waste pickers so wastes are scattered and serve as breeding grounds for disease vectors and with the leachate from decomposing garbage nearby water sources and soil which results in food contamination all this have serious environmental consequences alexandria the second capital of egypt is taken as practical case study of this search the field of solid waste management is as old as human beings age since that waste is a product that is commonly developed due to human living this sector has been of such concern for all cultures all along the history because of its significant effects on both the human health and his surrounding environment the effects on health appears in terms of disease spread like cholera and plague that were really developed due to poor means of handling solid wastes at this time while the significant effects that could affect the environment appear in terms of land degradation and soil contamination but a huge gap has occurred in the development and improvement of this field between developed and

developing countries along time in developing countries like egypt the situation is deteriorated in terms of inadequate waste collection service resulting in poor waste collection coverage efficiency that led to waste garbage spread on the access roads of the cities

When people should go to the book stores, search establishment by shop, shelf by shelf, it is essentially problematic. This is why we offer the books compilations in this website.
