this book offers a much needed look at the impact of our attainment driven education system on those children considered low attainers it reveals how difficult they find it to feel good about themselves their capacity to learn and their futures as well as shedding light on the role schools are playing in maintaining inequality and the illusion of meritocracy at the heart of bottom of the class are the engaging and thought provoking stories of four children whom the author followed through three years of primary school concerned with friendships getting told off and struggling with schoolwork they are in some ways very ordinary yet caught between competing messages about who they ought to be and their fears of failure they are also extraordinary showing impressive courage creativity and integrity in the way they navigate their paths through school by bringing the voices of low attainers into the centre of the debate around low attainment this crucially important book is a must read for anyone interested in educational inequality and school experience within education studies policy studies the sociology of education initial teacher training and educational leadership

this book offers a meso level description of demographics science education and science teacher education representing all 13 canadian jurisdictions the book provides local insights that serve as the basis for exploring the canadian system as a whole and function as a common starting point from which to identify causal relationships

that may be associated with Canada's successes the book highlights commonalities, consistencies and distinctions across the provinces and territories in a thematic analysis of the 13 jurisdiction specific chapters although the analysis indicates a network of policy and practice issues warranting further consideration the diverse nature of Canadian science education makes simple identification of causal relationships elusive Canada has a reputation for strong science achievement however there is currently limited literature on science education in Canada at the general level or in specific areas such as Canadian science curriculum or science teacher education this book fills that gap by presenting a thorough description of science education at the provincial territorial level as well as a more holistic description of pressing issues for Canadian science education
