this book offers a much needed look at the impact of our attainment driven education system on those children considered low attainers it reveals how difficult they find it to feel good about themselves their capacity to learn and their futures as well as shedding light on the role schools are playing in maintaining inequality and the illusion of meritocracy at the heart of bottom of the class are the engaging and thought provoking stories of four children whom the author followed through three years of primary school concerned with friendships getting told off and struggling with schoolwork they are in some ways very ordinary yet caught between competing messages about who they ought to be and their fears of failure they are also extraordinary showing impressive courage creativity and integrity in the way they navigate their paths through school by bringing the voices of low attainers into the centre of the debate around low attainment this crucially important book is a must read for anyone interested in educational inequality and school experience within education studies policy studies the sociology of education initial teacher training and educational leadership

this book offers a meso level description of demographics science education and science teacher education representing all 13 canadian jurisdictions the book provides local insights that serve as the basis for exploring the canadian system as a whole and function as a common starting point from which to identify causal relationships that may be associated with canada s successes the book highlights commonalities consistencies and distinctions across the provinces and territories in a thematic analysis of the 13 jurisdiction specific chapters although the analysis indicates a network of policy and practice issues warranting further consideration the diverse nature of canadian science education makes simple identification of causal relationships elusive canada has a reputation for strong science achievement however there is currently limited literature on science education in canada at the general level or in specific areas such as canadian science curriculum or science teacher education this book fills that gap by presenting a thorough description of science education at the provincial territorial level as well as a more holistic description of pressing issues for canadian science education

range of chapters from international experts speak to ca classification and distribution the mechanisms of action and drug design of inhibitors and activators the druggability of the various isoforms in the treatment of a multitude of diseases and threats to human health carbonic anhydrases provides biology biochemistry and medicinal chemistry students and researchers a thorough discussion and update on the evergreen and expanding research area of cas offers a full overview of cas biochemical and structural features as well as drug design and pharmacology of inhibitors and activators provides a thorough update on the newly identified isoforms modulating chemotypes and innovative biomedical applications describes the current biotechnological applications of cas including processes for co2 capture features chapter contributions from international leaders in ca biology medicinal chemistry and pharmacology

environmental asset classes are not a hope for tomorrow but a reality today this new asset category promises to grow dramatically in the 21st century as financial analysts investors and corporations around the world try to find ways to profit or reduce costs while promoting environmental social benefits sustainable investing and environmental markets opportunities in a new asset class presents a groundbreaking new way to do well and to do good with a combination of over 50 years of practical experience in the field of environmental finance richard sandor nathan clark murali kanakasabai and rafael marques provide a solid preliminary understanding of the promising and transformational new investment category of environmental assets three broad asset classes air and water catastrophic and weather risk and sustainability are covered across 12 chapters which analyze how these environmental asset classes are currently being incorporated into commodities fixed income and equity instruments and what the future holds for the field

winner of the 2019 broken frontier award for best book on comics today fans still remember and love the british girls comic misty for its bold visuals and narrative complexities yet its unique history has drawn little critical attention bridging this scholarly gap julia round presents a comprehensive cultural history and detailed discussion of the comic preserving both the inception and development of this important publication as well as its stories misty ran for 101 issues as a stand alone publication between 1978 and 1980 and then four more

years as part of tammy it was a hugely successful anthology comic containing one shot and serialized stories of supernatural horror and fantasy aimed at girls and young women and featuring work by writers and artists who dominated british comics such as pat mills malcolm shaw and john armstrong as well as celebrated european artists to this day misty remains notable for its daring and sophisticated stories strong female characters innovative page layouts and big visuals in the first book on this topic round closely analyzes misty s content including its creation and production its cultural and historical context key influences and the comic itself largely based on round s own archival research the study also draws on interviews with many of the key creators involved in this comic including pat mills wilf prigmore and its art editorial team jack cunningham and ted andrews who have never previously spoken about their work richly illustrated with previously unpublished photos scripts and letters this book uses misty as a lens to explore the use of gothic themes and symbols in girls comics and other media it surveys existing work on childhood and gothic and offers a working definition of gothic for girls a subgenre which challenges and instructs readers in a number of ways

comparing grief in french british and canadian great war fiction 1977 2014 offers a comparative analysis of twenty three first world war novels engaging with such themes as war trauma facial disfigurement women s war identities communal bonds as well as the concepts of mourning and post memory anna branach kallas and piotr sadkowski identify the dominant trends in recent french british and canadian fiction about the great war referring to historical sociological philosophical and literary sources they show how by both consolidating and contesting national myths fiction continues to construct the 1914 1918 conflict as a cultural trauma illuminating at the same time some of our most recent ethical concerns
