argues that social worlds comprise networks of interaction and relations this book demonstrates how networks comprise multiple dyadic relations which are mutually transformed through their combination it covers many of the key concepts and concerns of contemporary sociology including identity power exchange and meaning

argues that relations are real and generate real relational goods and evils affecting those involved and other people

this is the first book addressing explicitly and specifically the methodological issues of relational sociology and more broadly of the new relational paradigm in social sciences the dynamically developing relational movement in social and cultural sciences is fueled by various classical and contemporary theoretical inspirations relational approaches propose various models of relational analyses such as field analysis social space analysis network analysis or the critical realist relational heuristic the relational turn which promotes interdisciplinarity in research simultaneously reflects the drive towards an innovative reconstruction of sociology contemporary relational sociology is at the forefront of the relational movement the program of relational sociology is still being shaped frequently becoming the subject of discussions with different standpoints expressed the aim of this book is to reflect on various relational approaches and models of relational analysis answers to two basic questions are sought are there foundations for a methodological unity of relational sociology despite the diversity of approaches and does relational sociology form a new paradigm to answer these questions it is necessary to investigate differences between the relational paradigm and the earlier competing sociological paradigms the answers to key questions show what innovations the methodology of relational sociology brings i e what are the methodological consequences of the relational concept of the social fact the broadly defined horizon of

methodological issues is presented the book creates an open space for discussion on various approaches and varieties of relational analysis as well as the possibility of their methodological synthesis within relational sociology

edited by françois depelteau and christopher powell this volume and its companion applying relational sociology networks relations addresses fundamental questions about what relational sociology is and how it works

covers the traditional literature on the philosophy of the social sciences and the contemporary philosophical and methodological debates developing at the heart of the disciplinary and interdisciplinary groups in the social sciences it addresses the needs of researchers and academics who are grappling with the relationship between questions of knowledge construction and the problems of social scientific method

in this book natàlia cantó milà elaborates on georg simmel s relational approach to a theory of value pointing at the heuristic possibilities that this approach offers to modern sociology and to a sociology of modernity she does so by focusing on the theory of value simmel developed in his the philosophy of money delivering an alternative reading of this book that views its theory of value as its main axial point simmel s theory of value is depicted by cantó milà as including an intrinsically sociological aspect since economic as well as moral ethic and aesthetic values are conceived as resulting from human relations

this handbook on relational sociology covers a rapidly growing approach in the social sciences one which is connected to the interests of a large diverse pool of researchers across a range of disciplines relational sociology has been one of the key foundations of the relational turn in human sciences since the 1980s and it offers a unique opportunity to redefine the basic epistemological and ontological principles of sociology as we know it the contributors collected here aim to elucidate the complexity and the scope of this growing approach by dealing with three central questions where does relational sociology come from and what are its principal concerns what are the main theoretical and methodological currents within relational sociology what have we studied in relational sociology and what are the results

this edited volume contains contributions from scholars from all over the world that outline their version of relational sociology

situate it within the relational landscape and indicate how it might contribute to the development of a relational paradigm this book aims to open a variety of perspectives on relational sociology and to bring them into a fruitful frictional dialogue these chapters draw on the canonical authors of the relational turn present relational perspectives in the neighbouring disciplines integrate divergent approaches solve important conceptual problems articulate the relations between the core concepts of relational sociology and apply the relational perspective to subfields of sociology the first part of the book considers structuralism post structuralism and the new institutionalism the second part is concerned with the hard core of relational sociology and takes the work of pierre bourdieu and harrison white in another direction the third part is the most innovative one and contains texts that add another turn to the relational turn the final part lifts the veil on non human relations and brings the anthropocene to the fore

social structure network structure the social context stratification in elite sociological methodology stratification in american manufacturing interest the perception of utility conformity and deviance with respect to journal norms in elite sociological methodology autonomy and cooptation market constraints and directorate ties with respect to american manufacturing industries toward a structural theory of action

plagued by confusion the concept of social structure still presents difficulties for sociologists who have not agreed on a common definition of the term this text discusses the concept in relation to institutional relational and embodied structure

emphasizes the power of nationalist ideology in uniting states rather than separating them comparison of germany and vietnam focuses on shared experience of division communism and regional integration

this volume emphasise the radical difference between marx s epistemology and other theories of knowledge

the second edition of this compelling and popular book offers a unique global perspective on children s lives throughout the world it shows how the notion of childhood is being radically re shaped in part as a consequence of globalization taking an engaging historical and comparative approach the book explores social issues such as how children are constituted as raced classed and gendered subjects how children s involvement in war is connected to the globalization of capitalism and organized crime and how

school and work operate as sites for the governing of childhood the book discusses wide ranging topics including children s rights the family children and war child labour and young people s activism around the globe in addition to updated literature throughout the revised edition includes new chapters on migration and trafficking and the role of play the book will continue to be of great value to students and scholars in the fields of sociology geography social policy and development studies it will also be a valuable companion to practitioners of international development and social work as well as to anyone interested in childhood in the contemporary world
