an entirely new follow up volume providing a detailed account of numerous additional issues methods and results that characterize current work in historical linguistics this brand new second volume of the handbook of historical linguistics is a complement to the well established first volume first published in 2003 it includes extended content allowing uniquely comprehensive coverage of the study of language s over time though it adds fresh perspectives on several topics previously treated in the first volume this handbook focuses on extensions of diachronic linguistics beyond those key issues this handbook provides readers with studies of language change whose perspectives range from comparisons of large open vs small closed corpora via creolistics and linguistic contact in general to obsolescence and endangerment of languages written by leading scholars in their respective fields new chapters are offered on matters such as the origin of language evidence from language for reconstructing human prehistory invocations of language present in studies of language past benefits of linguistic fieldwork for historical investigation ways in which not only biological evolution but also field biology can serve as heuristics for research into the rise and spread of linguistic innovations and more moreover it offers novel and broadened content complementing the earlier volume so as to provide the fullest available overview of a wholly engrossing field includes 23 all new contributed chapters treating some familiar themes from fresh perspectives but mostly covering entirely new topics features expanded discussion of material from language families other than indo european provides a multiplicity of views from numerous specialists in linguistic diachrony the handbook of historical linguistics volume ii is an ideal book for undergraduate and graduate students in linguistics researchers and professional linguists as well as all those interested in the history of particular languages and the history of language more generally

this accessible hands on text not only introduces students to the important topics in historical linguistics but also shows them how to apply the methods described and how to think about the issues abundant examples and exercises allow students to focus on how to do historical linguistics distinctive to this text is its integration of the standard topics with others now considered important to the field including syntactic change grammaticalization

sociolinguistic contributions to linguistic change distant genetic relationships areal linguistics and linguistic prehistory examples are taken from a broad range of languages those from the more familiar english french german and spanish make the topics more accessible while those from non indo european languages show the depth and range of the concepts they illustrate this second edition features expanded explanations and examples as well as updates in light of recent work in linguistics including a defense of the family tree model a response to recent claims on lexical diffusion frequency and a section on why languages diversify and spread

the first volume of the handbook of historical linguistics is the best worn handbook among many in my office and even though it is almost 20 years old i still consult it often still historical linguistics is a very different field today than it was in 2003 and this new volume fully reflects and engages with the state of the art it is a completely new book a worthy successor and i look forward to wearing out this second volume joseph salmons university of wisconsin madison usa this is an important resource for right now and far into the future in its breadth and depth it has everything we could ask for and more a comprehensive survey in 24 chapters written by the world's foremost scholars it unites time honored fundamentals of historical linguistics and progressive lines of ongoing research lyle campbell university of hawaii at manoa usa this brand new second volume handbook of historical linguistics is a complement to the well established first volume initially published in 2003 it includes extended content allowing uniquely comprehensive coverage of the study of language s over time though it adds fresh perspectives on several topics previously treated in the first volume this handbook focuses on extensions of diachronic linguistics beyond those key issues this handbook provides readers with studies of language change whose perspectives range from comparisons of large open vs small closed corpora via creolistics and linguistic contact in general to obsolescence and endangerment of languages written by leading scholars in their respective fields the chapters of this handbook cover new topics such as the origin of language the evidence from language for reconstructing human prehistory the relevance of the study of present day language for studying language in the past and the benefits of linguistic fieldwork for historical investigation unique to this volume is a chapter that discusses in detail a large number of highly specific predictions as to the future of a widely spoken language variety thereby focusing long term attention on thirty changes in the lexicon phonology morphology and morphosyntax of north american english the handbook of historical

linguistics volume ii is an ideal book for undergraduate and graduate students in linguistics researchers and professional linguists as well as all those interested in the history of particular languages and the history of language more generally

main description the handbook historical linguistics of english offers in more than 130 articles in two volumes a comprehensive interdisciplinary and theory neutral overview of all central aspects of the history of english the first volume contains detailed descriptions of the individual linguistic levels from phonology to syntax semantics and pragmatics for each period of the language from old english to late modern english moreover the volume offers chapters on particular topics pertaining to individual periods such as the great vowel shift standardization and do periphrasis the second volume takes on a broader perspective and addresses more theoretical concerns it covers topics such as resources for studying and teaching the history of english historiography the history of the discipline itself theoretical approaches to studying language variation and change including recent research trends and the history of englishes in the twentieth century and around the world

roger lass offers a critical survey of the foundations of the art of historical linguistics

bringing the advances of theoretical linguistics to the study of language change in a systematic way this innovative textbook demonstrates the mutual relevance of historical linguistics and contemporary linguistics numerous case studies throughout the book show both that theoretical linguistics can be used to solve problems where traditional approaches to historical linguistics have failed to produce satisfying results and that the results of historical research can have an impact on theory the book first explains the nature of human language and the sources of language change in broad terms it then focuses on different types of language change from contemporary viewpoints before exploring comparative reconstruction the most spectacular success of traditional historical linguistics and the problems inherent in trying to devise new methods for linguistic comparison positioned at the cutting edge of the field the book argues that this approach can and should lead to the re integration of historical linguistics as one of the core areas in the study of language

this is the first of two volumes of papers selected from those given at the 12th international conference on english historical linguistics the second is new perspectives on english historical linguistics 2 lexis and transmission together t

overview of many of the issues that are currently engaging practitioners in the field in this volume the primary concern is with the historical grammar of English some papers take a broad overview of the subject positioning it within current advances in linguistic theory while others deal with specific points of syntax and morphology in a historical context there is a recurrent emphasis on data collection and analysis with a chronological range from Old to present-day English and a geographical spread from Scotland to Newfoundland contributions from scholars around the world remind us that not only English itself but the history of English is now an international possession

This accessible hands-on introduction to historical linguistics the study of language change does not just talk about topics with abundant examples and exercises it helps students learn for themselves how to do historical linguistics distinctive to the book is its integration of the standard traditional topics with others now considered vital to historical linguistics explanation of why languages change sociolinguistic aspects of linguistic change syntactic change and grammaticalization distant genetic relationships how to show that languages are related areal linguistics and linguistic prehistory examples come from a wide range of languages those from the history of more familiar languages such as English French German and Spanish make the concepts they illustrate more accessible while others from numerous non-Indo-European languages help to demonstrate the depth and richness of the concepts and methods they illustrate with its lucid and engaging style expert guidance and comprehensive coverage this book is not only an invaluable textbook for students coming to the subject for the first time but also an entertaining and engaging read for specialists in the field key features • practical hands-on approach including numerous student exercises • wide range of languages and examples • accessible writing style aimed at students • comprehensive and insightful coverage of essential topics key words historical linguistics syntactic change grammaticalization language change

Trask's Historical Linguistics third edition is an accessible introduction to historical linguistics the study of language change over time this engaging book is illustrated with language examples from all six continents and covers the fundamental concepts of language change methods for historical linguistics linguistic reconstruction sociolinguistic aspects of language change language contact the birth and death of languages language and prehistory and the issue of very remote relations this third edition of the renowned Trask's Historical Linguistics is fully revised and updated and covers the most recent developments in historical

linguistics including more detail on morphological change including cutting edge discussions of iconization coverage of recent developments in sociolinguistic explanations of variation and change new case studies focusing on germanic languages and american and new zealand english and updated exercises covering each of the topics within the book a brand new companion website featuring material for both professors and students including discussion questions and further exercises as well as commentaries on the exercises within the book *Trask's Historical Linguistics* is essential reading for all students of language linguistics and related disciplines the accompanying website can be found at [routledge.com/cw/trask](http://routledge.com/cw/trask)

all languages change just as other aspects of human society are constantly changing this book is an introduction to the concepts and techniques of diachronic linguistics the study of language change over time it covers all the major areas of historical linguistics presenting concepts in a clear and concise way examples are given from a wide range of languages with special emphasis on the languages of australia and the pacific while the needs of undergraduate students of linguistics have been kept firmly in mind the book will also be of interest to the general reader seeking to understand language and language change for this fourth edition a number of new sections have been written including many new problems and several datasets existing materials have been supplemented with new sections on grammaticalization tonogenesis morphological change and using statistical methods in language classification

discusses all aspects of language change as a dynamic process against a background of the differing approaches of the structuralist neogrammarian and transformational generative schools
