many recent discussions of working class culture in literary and cultural studies have tended to present an oversimplified view of resistance in this groundbreaking work Pamela Fox offers a far more complex theory of working class identity particularly as reflected in British novels of the late nineteenth and early twentieth centuries through the concept of class shame she produces a model of working class subjectivity that understands resistance in a more accurate and useful way as a complicated kind of refusal directed at both dominated and dominant culture with a focus on certain classics in the working class literary canon such as the ragged trousered philanthropists and love on the dole as well as lesser known texts by working class women Fox uncovers the anxieties that underlie representations of class and consciousness shame repeatedly emerges as a powerful counterforce in these works continually unsettling the surface narrative of protest to reveal an ambivalent relation toward the working class identities the novels apparently champion class fictions offers an equally rigorous analysis of cultural studies itself which has historically sought to defend and value the radical difference of working class culture Fox also brings to her analysis a strong feminist perspective that devotes considerable attention to the often overlooked role of gender in working class fiction she demonstrates that working class novels not only

expose master narratives of middle class culture that must be resisted but that they also reveal to us a need to create counter narratives or formulas of working class life in doing so this book provides a more subtle sense of the role of resistance in working class culture while of interest to scholars of victorian and working class fiction pamela fox s argument has far reaching implications for the way literary and cultural studies will be defined and practiced
