the world food crisis 1972 1975 gave rise to new development concepts to eradicate world hunger small peasants were supposed to use modern inputs like high yielding seeds fertilizer pesticides and irrigation this would turn

subsistence producers into business owners transform rural areas invigorate national economies and the crisis stricken world economy and thus stabilize capitalism together with an in depth account of the world food crisis this book analyses how this global scheme largely failed it shows its diverse initiators their reasoning and motives its political breakthrough the degrees to which it was implemented globally and nationally in the following decades and its socioeconomic effects in rural areas despite internationally coordinated policies and coercive means the scheme failed on all levels situation analysis design policies incapable institutions including big business implementation and peasants responses selective realization in certain regions and for certain crops and the appropriation of funds by local elites often aggravated inequality and hunger case studies are about bangladesh indonesia tanzania and mali the book shows limits to global social engineering imperialism and state control it is aimed at students scholars activists and non specialists interested in development and the world food problem the open access version of this book available at taylorfrancis.com has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license

this 1995 book tells the absorbing story of scientific discovery and its exploitation in agriculture

the keyword of the 2000 conference of chain management in agribusiness and the food industry is innovation important themes are innovative governance structures in chains mass individualisation and the role of information and communication technology innovative product market combinations and systems innovation in supply chains thematic papers present results of ongoing research and new supply chain concepts chain analysis modelling for supply chain design and redesign designing supply chain strategies information systems applications etc regional based papers elaborate on regional and local specificities in south america australia asia north america and europe

in 1945 a labour government with socialist aspirations was elected prior to this much of the left s political energy had been directed towards nationalisation and the private sector had been seen as peripheral equally the private sector was ill prepared to deal with a labour government despite the coolness between the two the war had left a legacy of a high level of interaction between private industry and the forces of government labour governments and private industry examines in detail the complex relationship between the labour government and the private sector the first part of the book analyses the types of policy in operation and their implementation the second part takes certain sectors of british industry as case studies to consider the practical application of these policies throughout the book the contributors focus their arguments around three main questions to what extent were the

policies of this labour government actually socialist what was the role of the labour government as a modernising agency in the private sector what was the power of private industry to hinder the policies of the government despite the centrality of the years 1945 51 for an understanding of britain s long term industrial problems this is the first historical study of the relationship between privately owned industry and the government during the period its relevance for contemporary politics can hardly be overestimated this reconsideration of a crucial period with the benefits of the modern perspective is timely and necessary book jacket title summary field provided by blackwell north america inc all rights reserved

once patronized primarily by the counterculture and the health food establishment the organic food industry today is a multi billion dollar business driven by ever growing consumer demand for safe food and greater public awareness of ecological issues assumed by many to be a recent phenomenon that industry owes much to agricultural innovations that go back to the dust bowl era this book explores the roots and branches of alternative agricultural ideas in twentieth century america showing how ecological thought has challenged and changed agricultural theory practice and policy from the 1930s to the present it introduces us to the people and institutions who forged alternatives to industrialized agriculture through a deep concern for the enduring fertility of the soil a passionate commitment to human health and a strong advocacy of economic justice for farmers randal beeman and james pritchard show that agricultural issues were central to the rise of the environmental movement in the united states as family farms failed during the depression a new kind of agriculture was championed based on the holistic approach taught by the emerging science of ecology ecology influenced the permanent agriculture movement that advocated such radical concepts as long term land use planning comprehensive soil conservation and organic farming then in the 1970s sustainable agriculture combined many of these ideas with new concerns about misguided technology and an over consumptive culture to preach a more sensible approach to farming in chronicling the overlooked history of alternative agriculture a green and permanent land records the significant contributions of individuals like rex tugwell hugh bennett louis bromfield edward faulkner russell and kate lord scott and helen nearing robert rodale wes jackson and groups like friends of the land and the practical farmers of iowa and by demonstrating how agriculture also remains central to the public interest especially in the face of climatic crises genetically altered crops and questionable uses of pesticides this book puts these issues in historical perspective and offers readers considerable food for thought

papers chiefly with reference to india presented at a workshop held in new delhi 1988

publishes articles on all aspects of business and management
