i have been teaching music for over 15 years and the one thing we music teachers all struggle with is getting our students to want to practice their instrument on their own music students understand the necessity of practicing scales and pieces on their own at home but the problem is that practicing alone can get boring these books are not meant to replace traditional music teaching books but rather act as a different way to practice your instrument and due to the fact that we include slow practice files while you are still learning the song and full tempo ones for when you have learned the slower version you can practice with the band even when you haven t quite mastered the notes at full speed yet the songs have been carefully written to fit within the abilities of students on each level the songs in level 1 should all be playable by students who are approaching the end of their first year of learning their instrument and many of the songs will be playable by hard working students who have only been learning their instrument for a few months how to access the practice files and backtracks simply visit the website jointhebandbooks com and click through to your instrument and level that page will include four recordings for every song in the book a slow backtrack with a lead melody to assist you in learning the song a slow backtrack with no lead melody a full tempo backtrack with a lead melody and a full tempo backtrack with no lead melody each page also gives you the option to download all the files to your device so that you don t always have to play them from the web page i hope you enjoy practicing and performing i am excited for you to join the band
