Two Kinds Of Knowledge Ew Kenyon two kinds of knowledge ew kenyon The exploration of knowledge has long been a central theme in philosophy, education, and human understanding. Among the many perspectives offered, Ew Kenyon's distinction between two kinds of knowledge provides a compelling framework for understanding how humans process and utilize information. This dichotomy not only clarifies the nature of learning but also offers insights into personal development, teaching strategies, and the pursuit of wisdom. In this article, we delve into the two kinds of knowledge as articulated by Ew Kenyon, examining their characteristics, implications, and significance in various contexts.

Understanding Ew Kenyon's Concept of Two Kinds of Knowledge

Ew Kenyon, a notable thinker and educator, proposed that human knowledge can be broadly categorized into two fundamental types. These are often referred to as "knowing that" and "knowing how", or in more technical terms, factual knowledge and procedural knowledge. Recognizing the distinction between these two forms is essential for understanding how individuals learn, apply, and transfer knowledge.

Factual Knowledge: The "Knowing That" Definition and Characteristics

Factual knowledge, or "knowing that," pertains to awareness of specific facts, information, or data. It involves the comprehension of concepts, principles, and details that can be explicitly stated or memorized. This type of knowledge is often associated with academic learning and is foundational for further understanding. Key characteristics include:

- Explicitness: Facts are clearly articulated and easily communicated.
- Memorization: Often acquired through rote learning or reading.
- Transferability: Can be transferred from one context to another when the facts are relevant.
- Stability: Generally remains consistent over time unless updated with new information.

Examples of Factual Knowledge

- The capital city of France is Paris.
- Water boils at 100°C under standard atmospheric conditions.
- The Pythagorean theorem relates the sides of a right-angled triangle.

The Role of Factual Knowledge in Learning

Factual knowledge serves as the foundation for higher-order thinking and application. It enables individuals to:

- Understand concepts thoroughly.
- Engage in critical thinking and analysis.
- Build upon existing information to develop new ideas.
- Communicate effectively about specific topics.

However, over-reliance solely on factual knowledge can lead to superficial understanding if not integrated with procedural skills.

Procedural Knowledge: The "Knowing How" Definition and Characteristics

Procedural knowledge, or "knowing how," relates to the ability to perform tasks, carry out processes,

or apply skills effectively. It is often implicit and acquired through practice, experience, and active engagement. Key features include:

- Implicitness: Often subconscious or tacit; difficult to articulate.
- Skill-based: Involves physical or mental procedures.
- Context-dependent: Performance can vary depending on circumstances.
- Developed through practice: Requires active participation to master.

Examples of Procedural Knowledge

- Riding a bicycle.
- Solving a mathematical problem using a specific algorithm.
- Playing a musical instrument.
- Conducting a scientific experiment.

The Significance of Procedural Knowledge

Procedural knowledge is crucial for competence and efficiency in real-world tasks. It allows individuals to:

- Execute skills with confidence.
- Adapt to new situations by applying learned procedures.
- Innovate and problem-solve through skilled application.
- Transition knowledge from theory to practice.

In education, fostering procedural knowledge often involves hands-on activities, simulations, and practice sessions.

The Interplay Between the Two Types of Knowledge

Complementarity and Integration

While the distinction between factual and procedural knowledge is clear, their effective application depends on their integration. For example:

- Knowing the theory behind a process (factual) enhances the ability to perform it correctly (procedural).
- Practicing a skill (procedural) reinforces understanding of underlying principles (factual).

Examples of Integration

- Learning chemistry: Knowing the facts about chemical reactions (factual) and performing experiments (procedural).
- Language learning: Memorizing vocabulary (factual) and conversing fluently (procedural).
- Cooking: Understanding recipes and techniques (factual) and preparing dishes (procedural).

3 Challenges in Balancing Both Types

Some educational systems favor memorization over skill development or vice versa, leading to:

- Superficial learning without practical application.
- Skilled practitioners who lack foundational knowledge.
- Difficulty in transferring knowledge to new contexts.

Achieving a balance is essential for comprehensive competence.

Implications in Education and Personal Development

Educational Strategies

Effective teaching involves recognizing the importance of both knowledge types:

- For factual knowledge:
 - Use of lectures, reading, memorization techniques.
 - Emphasis on understanding and retention.
- For procedural knowledge:
 - Incorporation of hands-on activities, simulations, and practice.
 - Encouraging problem-solving and critical thinking.

Balancing these strategies fosters deep learning and skill mastery.

Personal Development and Lifelong Learning

Individuals aiming for growth should:

- Continuously acquire factual knowledge to stay informed.
- Engage in activities that develop procedural skills.
- Reflect on the interplay between knowing facts and applying skills.
- Seek opportunities for experiential learning to reinforce procedural competence.

Conclusion: Embracing Both Kinds of Knowledge for Holistic Growth

Ew Kenyon's distinction between the two kinds of knowledge—factual ("knowing that") and procedural ("knowing how")—remains profoundly relevant. Recognizing that both are vital components of human cognition enables educators, learners, and practitioners to design more effective learning experiences and to develop a more comprehensive understanding of mastery. Ultimately, integrating factual knowledge with procedural skills leads to greater competence, adaptability, and

wisdom, empowering individuals to navigate the complexities of life and work with confidence and insight. Embracing both kinds fosters not only academic success but also lifelong personal growth and fulfillment.

Understanding these distinctions helps believers focus on spiritual growth, deepen their faith, and rely on divine wisdom rather than solely on human reasoning for guidance and decision-making.

Two Kinds of Knowledge by E.W. Kenyon: An In-Depth Exploration In the realm of spiritual understanding and personal growth, E.W. Kenyon stands out as a pivotal figure whose teachings continue to influence countless believers and seekers. Among his numerous insights, the concept of "Two Kinds of Knowledge" offers a profound framework for understanding how humans relate to truth, power, and divine revelation. In this article, we will delve deeply into Kenyon's dichotomy of knowledge, examining its definitions, implications, and practical applications, all through an analytical and engaging lens reminiscent of expert reviews and product analyses. --- Understanding the Core of E.W. Kenyon's "Two Kinds of Knowledge" E.W. Kenyon, a renowned Christian minister and author of the early 20th century, emphasized that understanding the nature of knowledge is vital for spiritual growth and victory in life. He proposed that there are fundamentally two types of knowledge that influence human existence: "Knowledge of the Word" and "Knowledge of the Senses." These two categories form a dichotomy that shapes how individuals perceive reality, make decisions, and access divine power. Kenyon's framing of these knowledge types is not merely academic; it underscores the importance of choosing which form of knowledge to rely upon and highlights the potential pitfalls of leaning solely on sensory information. His teachings advocate for a shift from reliance on the tangible and visible to the divine and spiritual. --- Two Kinds Of Knowledge Ew Kenyon

5 H2: The Two Kinds of Knowledge — Definitions and Characteristics

Kenyon's distinction between these knowledge types is foundational to

his spiritual philosophy. Let's explore each in detail:

H3: Knowledge of the Senses Definition: This form of knowledge is rooted in the human experience of the physical world. It is what we perceive through our five senses—sight, sound, touch, taste, and smell. It is the tangible, measurable, and observable information that forms the basis of our everyday understanding of reality. Characteristics: - Empirical and Observable: Relies on direct sensory experience or scientific measurement. - Temporary and Limited: Subject to change; what is true today may be false tomorrow based on new observations. - Materialistic in Focus: Emphasizes the physical, the visible, and the material aspects of life. - Influences Natural Thinking: Often forms the basis of human reasoning, decision-making, and worldview. Implications in Daily Life: While necessary for navigating the physical world—driving a car, cooking a meal, or operating machinery—Kenyon warns that over-reliance on sensory knowledge can lead to limitations, doubts, and fears because it is inherently unstable and finite. Limitations: - Cannot access divine or spiritual truths directly. - May lead to negative mental states when sensory perceptions are unfavorable or contradictory. - Does not account for the unseen realities that Kenyon asserts are real and accessible through spiritual knowledge. ---

H3: Knowledge of the Word (Spiritual Knowledge) Definition: This is the divine or spiritual knowledge that comes from God's revealed Word—primarily the Bible—as well as the Holy Spirit's guidance. It involves understanding spiritual truths, divine promises, and the realities of the unseen realm. Characteristics: - Faith-Based and Revealed: Accessed through spiritual revelation, faith, and divine illumination. - Eternal and Unchanging: Unlike sensory knowledge, spiritual truths are consistent and everlasting. - Supernatural Power: Holds the key to divine authority, healing, provision, and victory. - Inner Conviction: Often accompanied by a sense of peace, assurance, and divine direction. Implications in Daily Life: Kenyon emphasizes that spiritual knowledge empowers believers to live above circumstances, access divine provision, and operate in supernatural faith. It is the foundation for victorious Christian living, enabling believers to speak the Word of God and see manifestations of divine power. Advantages: - Connects believers with divine authority. - Provides hope and confidence amid challenges. - Transforms perception, aligning it with God's perspective. - Facilitates access to divine promises and healing. Limitations in the Physical Realm: While spiritual knowledge is powerful, it requires faith and spiritual sensitivity to access and Two Kinds Of Knowledge Ew Kenyon 6 apply effectively. It does not negate physical realities but offers a higher perspective. ---

H2: Practical Applications and Impact of the Two Kinds of Knowledge Kenyon's teaching urges believers to recognize the distinction and intentionally choose spiritual knowledge over sensory knowledge in key areas of life:

H3: Faith and Confession - Relying on the Word of God rather than sensory evidence enables believers to confess and believe the truth of divine promises, even when circumstances suggest otherwise. - Example: Speaking health by faith rather than focusing on symptoms.

H3: Healing and Miracles - Healing is accessed through understanding and applying spiritual truths rather than relying solely on medical science or visible symptoms. - Kenyon advocates that the believer's knowledge of the Word creates a spiritual environment that

manifests healing. H3: Provision and Prosperity - Financial breakthroughs are rooted in knowing and acting upon divine promises rather than depending solely on natural circumstances. H3: Victory Over Fear and Doubt - Recognizing the superiority of spiritual knowledge over sensory perceptions helps overcome negative mental states. Key Point: Kenyon emphasizes that victory in life hinges on which kind of knowledge the believer chooses to focus on. The more one feeds on God's Word, the more dominion and peace they experience. --- H2: The Interplay Between the Two Knowledge Types While Kenyon distinguishes between these two kinds of knowledge, he also explains their interaction: - Sensory knowledge is often the starting point for human understanding but should not be the final authority. - Spiritual knowledge builds upon and supersedes sensory perception, providing a higher truth. - The believer's challenge is to align their understanding with divine truths, especially in situations where sensory evidence contradicts spiritual promises. Practical Tip: Kenyon suggests that believers should feed on the Word consistently to renew their mind and develop spiritual insight, thereby enabling them to operate from a spiritual knowledge base rather than being dominated by sensory perceptions. --- Two Kinds Of Knowledge Ew Kenyon 7 H2: The Transformative Power of Choosing the Right Knowledge Kenyon's teachings reveal that the choice between these two types of knowledge is pivotal. This decision affects: - Mental and emotional stability: Focusing on spiritual truths brings peace amidst chaos. - Physical health: Faith in divine healing based on spiritual knowledge can lead to physical restoration. - Financial prosperity: Believing in divine provision based on God's promises leads to breakthroughs. - Spiritual growth: Developing discernment to distinguish and prioritize spiritual knowledge fosters maturity. Key Takeaway: Kenyon advocates for a deliberate shift from relying primarily on sensory knowledge to embracing and acting on spiritual knowledge. This shift unlocks divine power and aligns believers with God's victorious plan. --- H2: Final Thoughts and Reflection E.W. Kenyon's concept of "Two Kinds of Knowledge" remains profoundly relevant. It underscores a fundamental spiritual principle: the importance of choosing faith-based, divine truth over the limitations of physical perception. His teachings invite believers to elevate their understanding, renew their minds, and operate confidently in divine authority. For those seeking a practical pathway to spiritual victory, Kenyon's insights serve as a clarion call to prioritize the knowledge of the Word—faith, divine promises, and spiritual realities—over the transient and often deceptive perceptions of the senses. Embracing this dichotomy not only transforms individual lives but also impacts communities and spheres of influence by bringing divine power into everyday circumstances. In essence, Kenyon's "Two Kinds of Knowledge" challenges us to see the unseen, believe the impossible, and live above the limitations of the physical realm by anchoring our understanding in divine truth. mankind's great body of knowledge has come to us through the five senses sense knowledge can see the handiwork of god and can see the design in creation but it cannot find the designer in fact it's often unwilling to admit that there is a designer because it cannot see hear taste smell or touch him sense knowledge says that faith cannot produce miracles it does not know why we were created nor can it tell us the source of life light motion gravity or hundreds of other things but revelation knowledge holds all of these answers and more in the two kinds of knowledge god's wisdom is greater than our senses e w kenyon explains how we can discover the wisdom of god in his word this new kind of knowledge which the secular world cannot grasp brings us to a new kind of life taking us out of our failures and weaknesses to fill our hungry hearts with love faith and grace

this book is about the boisterous beginnings of the american pentecostal movement and the ideas that defined that movement during those formative years it follows a group of men who rethought the christian faith in light of their new experience of god thinking in the spirit aims to provide scholars and general readers who know

little or nothing about pentecostalism with an introduction to the ideas of the movement's most articulate early spokespersons and to provide pentecostals with a non-judgmental historical source to help them in their theological reflections. Douglas Jacobsen focuses on the individuals who formed the original brain trust of this now gigantic religious movement in a 25-year burst of creative energy at the beginning of the 20th century. These leaders articulated almost all the basic theological ideas that continue to define the pentecostal message in the United States and around the world.

Essek William Kenyon 1867-1948 has virtually escaped scholarly notice and yet his influence on the twentieth-century church is profound. Of particular note is Kenyon's influence on William Durham that apparently led to the first major split in pentecostalism. Kenyon's own evangelistic work was thoroughly interdenominational, touching every major Protestant denomination of his day. E. W. Kenyon and the Postbellum Pursuit of Peace, Power, and Plenty is the most comprehensive biography of Kenyon available today. It explores his influence on the pentecostal charismatic movements and likewise illuminates the practice of intuition and mysticism from which the 20th-century message of peace, power, and plenty emerged. Contains nine black and white photographs, bibliography, and index.

For years this book has challenged and inspired readers to step out in faith and receive the healing that Christ purchased for us. Many people have been healed while reading these pages. Legendary Bible teacher Dr. E. W. Kenyon has a rare gift for presenting the deep and profound truths of God's Word in a simple and easily understood way. His teachings on expressing positive confessions of faith formed much of the foundation for Word of Faith Pentecostalism. In Jesus the Healer, Dr. Kenyon fully explores the powerful gift of healing that Jesus demonstrated throughout his ministry. Sickness and disease are not God's will for believers, so Kenyon unpacks God's methods of healing and how to live the abundant life that Jesus promised. God's healing promises are no good unless you act on them. Believing is acting on God's Word. Faith is the result of acting on God's Word. Healing miracles are available today for those who believe and step out in faith.

The teaching of Kenyon Hagin and Copeland that Jesus died spiritually is important because of the influence of these men, not least on pentecostalism. This title states that adoption of JDS by pentecostalism would be damaging in several respects and thus draw the latter away from its moorings in traditional Christianity.

Many twenty-first-century evangelical charismatics in Britain are looking for a faith that works. They want to experience the miraculous in terms of healings and God-sent financial provision. Many have left the mainstream churches to join independent charismatic churches led by those who are perceived to have special insights and to

teach principles that will help believers experience the miraculous but all is not rosy in this promised paradise and when people are not healed or they remain poor they are often told that it is because they did not have enough faith this study discovers the origin of the principles that are taught by some charismatic leaders glyn ackerley identifies them as the same ideas that are taught by the positive confession health wealth and prosperity movement originating in the united states the origins of the ideas are traced back to new thought metaphysics and its background philosophies of subjective idealism and pragmatism these principles were imported into the uk through contact between british leaders and those influenced by american word of faith teachers glyn ackerley explains the persuasiveness of such teachers by examining case studies suggesting their miracles may well have social and psychological explanations rather than divine origins

soul winning is our business jesus made it clear that we are to bring others to his father he said follow me and i will make you fishers of men but many christians don't know how to win souls for their savior they are too timid to speak out don't know what to say or don't want to offend anyone legendary bible teacher e w kenyon offers a solution in personal evangelism 22 lessons to effectively share the gospel he takes readers through all possible scenarios of reaching the lost from those who have false hopes to the indifferent from the skeptical to those who have broken fellowship with the church until soul winning becomes the business of our life we will not lead many from darkness to light kenyon says soul winning is the art of arts we are selling the greatest thing in the world the joy that it gives to the one who finds christ the blessings that go into the home can never be estimated the man you lead to christ may become a key man in some community turning a whole section of men to christ our time is not our own but belongs to the lord when we evangelize to snatch souls from the hands of the enemy we give them strength joy and success and obtain more stars in our own heavenly crown

africans prevailing interest in the prosperity gospel is not only connected to the influence of american prosperity teachers reaching a worldwide audience through their imaginative use of the media but is also related to the african worldview and african traditional religion and its lasting influence on contemporary africans and the way they think about prosperity as well as their interest in prosperity in post colonial africa the research from a classical pentecostal perspective about the impact of the

prosperity message on africa is necessary timely and relevant because of its influence in the african pentecostal movement and its potential to harm the faith of believers leading to the potential disillusionment of christian believers who put their trust and money in formulas and recipes that seemingly only work for others especially the prosperity leaders who lead by example with incredulous riches and wealth

what does identification mean it means our complete union with jesus in his substitutionary sacrifice the teaching of identification is the legal side of redemption it unveils to us what god did for us in christ from the time he went to the cross until he sat down at the right hand of the father christ became one with us in sin so that we might become one with him in righteousness he became as we were so that we might be as he is now in identification we have one of the richest phases of redemption there is a twofold oneness first his oneness with our sin and humanity on the cross second our oneness with him in his glory on the throne these teachings unveil who we are in christ and how the father sees us in the son the vital aspect of redemption is what the holy spirit through the word is doing in us now when these truths really gain the ascendancy in our lives they will make us spiritual supermen it will be the end of our spiritual weakness and failure we will no longer struggle for faith for all things are already ours we will no longer pray for power for christ is in us we will no longer feel the awful bondage of sin consciousness for we are the righteousness of god in christ
