do contemporary welfare policies reflect the realities of the economy and the needs of those in need of public

cultural anxieties over the putatively deteriorating american work ethic and the class race sexual and gender biases
at the root of current policy and debates schram goes beyond analyzing the current state of affairs to offer a
progressive alternative he calls radical incrementalism whereby activists would recreate a social safety net tailored to
the specific life circumstances of those in need his provocative recommendations include a series of programs aimed
at transcending the prevailing pernicious distinction between social insurance and public assistance so as to better
address the needs of single mothers with children such programs could include divorce insurance or even some form
of pregnancy insurance for women with no means of economic support by pushing for such programs schram argues
activists could make great strides towards achieving social justice even in today s reactionary climate
