why el salvador hidden truths in writing this book i propose to explore these salvadoran histories pages hidden in dust which we have been denied by the economic power and its governments since the time of the spanish invasion we have systematically been denied the truth of this history which is part of our being as the original peoples which belongs to us to our identity we have been robbed and badly treated for more than 528 years which has caused

trauma and suffering across our lives and so i undertook to look beneath the debris of the past with its enigmas to find the truth in our past history from our ancestors colonization independence the first peoples uprisings genocide and ethnocide against our ancestors as well as crimes against humanity the role of the catholic church in the colonisation and imposition of christianity and its holy inquisition i also want you to be prepared because in this book you will encounter many surprises and facts which are going to collide with your beliefs and notions of being human i am not talking about to be christians because that is much deeper but of the cruelty of the spanish conquerors with the lies and falsehoods with which the salvadorans have been educated honour and glory brothers and sisters nahua maya lencas chortis pocomames xincas kakawiras chorotegas and izalcos who offered their blood for us and future generations this lent without resurrection to which our ancestors were subjected to began with the spanish invasion and has continued till this day in 2020 what you will find in the following pages are not sweet nor cheap announcements from the salvadoran power base in its communication mediums newspaper television digital media and many other lying media for the first time there are voices of our ancestors in the presence of our current generations the grandfathers and grandmothers the young and their actual leaders

after the fall of the porfirio díaz regime pueblo representatives sent hundreds of petitions to pres francisco i madero demanding that the executive branch of government assume the judiciary s control over their unresolved lawsuits against landowners local bosses and other villages the madero administration tried to use existing laws to settle land conflicts but always stopped short of invading judicial authority in contrast the two main agrarian reform programs undertaken in revolutionary mexico those implemented by emiliano zapata and venustiano carranza subordinated the judiciary to the executive branch and thereby reshaped the postrevolutionary state with the support of villagers who actively sided with one branch of government over another in matters of justice helga baitenmann offers the first detailed account of the zapatista and carrancista agrarian reform programs as they were implemented in practice at the local level and then reconfigured in response to unanticipated inter and intravillage conflicts ultimately the zapatista land reform which sought to redistribute land throughout the country remained an unfulfilled utopia in contrast carrancista laws intended to resolve quickly an urgent problem in a time of war had lasting effects on the

legal rights of millions of land beneficiaries and accidentally became the pillar of a program that redistributed about half the national territory

archaeological theory has gone through a great upheaval in the last 50 years from the processual theory which wanted to make archaeology more scientific to post processual theory which understands that interpreting human behavior even of past cultures is a subjective study this subjective approach incorporates a plurality of readings thereby implying that different interpretations are always possible allowing us to modify and change our ideas under the light of new information and or interpretive frameworks in this way interpretations form a continuous flow of transformation and change and thus archaeologists do not uncover a real past but rather construct a historical past or a narrative of the past post processual theory also incorporates a conscious and explicit political interest on the past of the scholar and the subject this includes fields and topics such as gender issues ethnicity class landscapes and consumption this reflects a conscious attempt to also decentralize the discipline from an imperialist point of view to an empowering one method and theory also means being politically aware and engaged to incorporate diverse critical approaches to improve understanding of the past and the present this book focuses on the fundamental theoretical issues found in the discipline and thus both engages and represents the very rich plurality of the post processual approach to archaeology the book is divided into four sections issues in archaeological theory archaeological theory and method in action space and power in material culture and images as material discourse

andr s molina enr quez the rousseau of the mexican revolution influenced the course of agrarian reform in his country but his association with the huerta regime has cast a shadow on his contributions to the revolution this biography provides the first in depth analysis of the ideas that guided the official land reform program as well as the first detailed discussion of molina enr quez s career after 1917
