first published in 1952 the eastern philosophers provides a straightforward account of the life and work of the great thinkers of the east and attempts to show in terms intelligible to the ordinary reader with what remarkable insistence the greatest of these thinkers dwell upon common themes it discusses themes like babylonia and israel zoroaster hinduism the buddha and buddhism the hindu systems the chinese sages and mohammed and islam the book raises three fundamental questions what are the basic differences between eastern and western thought what does the western world owe it to the thought of the east and vice versa in the third place to what extent is a rapprochement possible between the two worlds of thought this book is an essential read for students of philosophy in general and eastern philosophy in particular

key concepts in eastern philosophy provides an extensive glossary of the main terms and concepts used in eastern philosophy the book includes definitions of philosophical ideas linked to the national traditions of persia india islamic world china japan tibet including concepts from zoroastrianism hinduism sufism islam confucianism shintoism taoism buddhism each entry includes a guide for further reading and critical analysis and is cross referenced with associated concepts and is in easy to use a z format

understanding eastern philosophy provides an accessible critical introduction to how some of the key philosophies of the east compare with those in the west starting from a discussion of the problems of distinguishing between religions and philosophies ray billington presents a clear picture of the key tenets behind hinduism buddhism taoism jainism and confucianism

moving on to compare the key themes of religious philosophy that cut across east and west such as a belief in god the soul moral decision making nature and authority understanding eastern philosophy presents a fascinating and controversial picture of the contribution theistic religions have to make with its belief in a personal god bestowing a particular version of truth ray billington concludes that the universal mysticism characteristic of eastern thought provides a more realistic and rewarding path than is commonly supposed in the west understanding eastern philosophy assumes no prior knowledge of religion or philosophy

this element selectively examines a range of ideas and arguments drawn from the philosophical traditions of south and east asia focusing on those that are especially relevant to the philosophy of religion the element introduces key debates about the self and the nature of reality that unite the otherwise highly diverse philosophies of indian and chinese buddhism hinduism and jainism the emphasis of this element is analytical rather than historical key issues are explained in a clear precise accessible manner and with a view to their contemporary relevance to ongoing philosophical debates

this book deals neither with the historical and cultural setting of oriental viewpoints nor even with the religious beliefs and ritual practices that characteristically provide a context for these viewpoints but rather with a systematic and critical analysis of oriental perspectives as alternative philosophical positions at the same time hackett provides a succinct historical framework so that the student may place these systems in perspective

eastern philosophy the basics is an essential introduction to major indian and chinese philosophies both past and present exploring familiar metaphysical and ethical questions from the perspectives of different eastern philosophies including confucianism daoism and strands of buddhism and hinduism this book covers key figures issues methods and concepts questions discussed include what is the self is human nature inherently good or bad how is the mind

related to the world how can you live an authentic life what is the fundamental nature of reality throughout the book the relationships between eastern philosophy western philosophy and the questions reflective people ask within the contemporary world are brought to the fore with timelines highlighting key figures and their contributions a list of useful websites and further reading suggestions for each topic this engaging overview of fundamental ideas in eastern philosophy is valuable reading for all students of philosophy and religion especially those seeking to understand eastern perspectives

philosophy can be one of the most intimidating and difficult of disciplines as any of its students can attest eastern philosophy breaks down the obstacles to understanding the ideas of some of history's most influential eastern thinkers the text provides a detailed but accessible analysis of the work of a number of thinkers from all the major eastern philosophical traditions and from the earliest times to the present day the philosophers covered range from founder figures such as zoroaster and muhammed to modern thinkers like nishida kitaro and d t suzuki from buddhism to islam confucius to ghandi concepts and individuals are introduced in a lively and lucid narrative with extensive biographical detail instead of attempting to explain a philosopher's entire intellectual history the author examines a central theme in each philosopher's work and uses it to expound the essential ingredients of its relevant school of thought

eastern philosophy ep has often been neglected in mainstream academic discourse philosophy is the way of looking at understanding interpreting and fundamentally bringing together love and wisdom lovism this study contributes to a wider understanding of international relations and philosophies in a world where the balance of power is shifting and emerging as superpower countries india and china are increasingly growing in importance the objectives of this state of the art book are four fold 1 to understand the fundamentals of the ancient ep 2 to interpret basic concepts thoughts and teachings of classical international relation related

theories or peace spiritual insights of various wisdom within chinese indian islamic and christian missionaries 3 to assist the master s level students to participate actively in discussions and interpretations and to create insights and critical thinking methods accordingly and 4 to share the outcomes of philosophy with like minded actors institutions globally

key concepts in eastern philosophy provides an extensive glossary of the main terms and concepts used in eastern philosophy the book includes definitions of philosophical ideas linked to the national traditions of persia india islamic world china japan tibet including concepts from zoroastrianism hinduism sufism islam confucianism shintoism taoism buddhism each entry includes a guide for further reading and critical analysis and is cross referenced with associated concepts and is in easy to use a z format
