this book outlines the history of german development policy provides important insights into germany s motivations for development aid and closes an important research gap in this field from its beginnings to the present day german development cooperation has undergone various political and institutional changes this volume offers a comprehensive analysis of these phases and highlights the milestones that have shaped germany s approach to international development it is aimed at academics students political decision makers and anyone seeking an in depth understanding of the developments and challenges of german development policy

this book provides an in depth understanding of how the highly strategic brics brazil russia india china and south africa countries are planning and implementing their digital transformation processes it focuses particularly on two essential yet often neglected aspects of digital transformation the expansion of connectivity and the digitalization of public services throughout its chapters this book maps the policies regulations governance mechanisms and initiatives adopted by the brics to achieve the ambitious goal of becoming smart countries in these nations the functioning of the economy society and democratic governance is supported and enhanced by technology leading to significant evolution adopting a critical approach this volume acknowledges that digital transformation processes are not exempt from criticism despite offering unique opportunities for developing countries to become global leaders in addition to mapping the digital transformation processes of the brics countries this book provides valuable insights into their approaches highlighting both limitations and notable success stories these insights are beneficial for researchers policymakers and practitioners alike this volume is the result of an exceptional collaboration between cts fgv the center for technology and society at fundação getulio vargas law school rio de janeiro and unu egov the united nations university operating unit on policy driven electronic governance

this book investigates the impact of patient centered care pcc for older adults with chronic conditions and presents new evidence concerning its effects on the care process and health outcomes the book highlights the impact of pcc on elderly chronic disease patients health experiences and demonstrates that pcc is associated with better performance in delivering care to this group of patients the pcc approach also provides opportunities for improving the delivery of cancer care although patient centered oncology care is still in its infancy

and evidence on its effectiveness is scant the book also includes a systemic review and meta analysis of connections between pcc and cancer patients adverse healthcare utilization costs patient satisfaction and quality of care this book is unique in terms of the measures comprehensiveness and provides ample evidence that the implementation of pcc is associated with better healthcare performance the intended readers include researchers in related fields graduate students and healthcare providers it is hoped the book offers further evidence for meaningful practice and have many policy and research implications in pcc

the relatively frequent occurrence of rapid onset and very brief but often florid psychotic states with periodic recurrence alongside relatively low rates of ptsd and chronic psychosis were unexpected findings from the 2004 east timor mental health study conducted in the context of the country s recently won independence and in the wake of the atrocities endured in the protracted fight for sovereignty further unanticipated was the frequent association of recurrence with the time of the new moon fulan lotuk and other times or places of sacred lulik or associated cultural significance the perceived violation of culturally sacrosanct lulik obligations often also appeared to foreshadow the initial onset of such patterns of distress significant episodes of trauma and loss appeared a hidden feature of affected individuals histories which we argue have become symbolically entwined with local cultural understandings of ritual obligation sacredness and taboo this volume develops a dynamic but contextualized multi level formulation of psychosis and psychotic symptoms able to incorporate a range of factors from the biological through the sociocultural to the political the work is truly interdisciplinary drawing on both the quantitative and qualitative findings of our own study but further supported through local ethnography and broader anthropological enquiry into the outcomes of psychosis in non western settings psychoanalysis and psychoanalytic anthropology evidence and theory exploring links between trauma dissociation and psychosis and novel culturally adaptable psychosocial focused interventions for psychosis we situate both evidence and theorising in wider epistemological and political context including in relation to the movement for global mental health culturally patterned presentations of brief remitting relapsing psychosis are ultimately conceived as the trade off between competing fragmentary and synthetic forces the former in part secondary to the lasting and deleterious effects of overwhelming loss trauma and adversity the latter emboldened by cultural meaning and social response in the context of broad ecological pressures demanding survival and resilience

by analysing the irish development strategy this book questions its much portrayed success the republic of ireland has followed an export oriented development path relying on foreign direct investment inflows as the main development agent however this chosen path of development has led to growing industrial social and developmental polarisations despite the indisputable impressive overall growth figures growth is primarily driven by the investing multinationals and the inequality of earnings have been exacerbated thus questioning the irish growth model s success

this empirical thesis analyses the impact of sentiments in online media on consumers businesses and society as a whole and how knowledge of these correlations can be used in a variety of applications the results show that the sentiment data can be employed in a variety of ways functioning as an interesting new explanatory variable to complement and approximate survey data in areas such as tourism demand consumer confidence and many more in particular the cross country sentiment analysis reveals compelling information on media biases the reporting on alternative truths and countries as a filter bubble in addition to quantitative comparisons the descriptive statistics reveal important information on the sentiment developments across countries while this research is able to provide interesting findings for real world applications for consumers businesses and society the awareness of a media landscape that is heavily and increasingly dominated by negative news is particularly striking thus in addition to the actual applications above all the thesis shows the media landscape in which everyone must act in the future
