online current version of keating on construction contracts available through the westlaw database university username and password required

once the design has been completed the architects prepare the tender documents for the contractors and provide support during the tender procedure for the purpose of commissioning various building works it is necessary to set up building contracts which contain standard content as well as very individual provisions the building contract and its extensive drawings and specifications are the basis for the building work they must be understood by the supervising architect and implemented to create the building the complexity and diversity of building contracts is increased by the fact that there is hardly a building contract that does not have to be modified after it has been signed basics building contract offers the typical structures and explanations as well as the tools for creating project specific contracts and understanding the inherent complexity

comprehensive reference on all major and commonly used building contracts with a step by step approach to producing claims covering all the major and commonly used building contracts building contract claims considers the legal basis of building contract claims and shows what can and cannot be claimed providing the contractor employers and their advisors with a simple concise and effective source of information for use when preparing submitting or dealing with a claim this highly regarded book examines the legal basis of claims for extensions of time and additional payment under the main forms of construction contract it includes chapters dealing with the principles for extensions of time financial claims including for variations or compensation events common law and global claims employer claims duties of the employer s representative substantiating claims claims for time and money under the jct 2016 and nec4 contracts and sub contracts and claims for professional fees with the publication of the sixth edition building contract claims has been reordered to provide a step by step approach to producing claims and thoroughly revised to ensure it is fully up to date with the latest contracts court judgments and building practice updates include revision of chapters covering extensions of time in line with the second edition of the society of construction law s delay and disruption protocol new material to reflect the jct 2016 contracts and the nec4 contracts expanded coverage of employer claims updated sections for jct 2016 and nec4 sub contracts claims for professional fees for design consultants contract administrators quantity surveyors or project managers under the commonly used conditions of engagement the new edition of building contract claims is an essential reference for contractors contract administrators project managers and quantity surveyors as well as architects contracts consultants and construction lawyers

a practical guide to the current editions of some fifty standard building contracts sub contracts and related documents most widely used throughout the construction industry these are published by the joint contracts tribunal and the building employers confederation

building contract dictionary provides a succinct but authoritative reference to words phrases and terms encountered in and in connection with building contracts for the new edition all entries have been reconsidered and updated in light of case law and legislation and the book has been substantially enlarged since the last edition ten years ago there are now over 800 separate entries a wide range of contracts has been referenced including jct 98 ifc 98 mw 98 wcd 98 pcc 98 mc 98 aca 3 gc works 1 1998 nec nsc c dom 1 dom 2 as well as topics such as adjudication arbitration and the civil procedure rules it will provide an invaluable reference for architects quantity surveyors project managers and contractors it will also find a ready readership among all construction lawyers this is an indispensable book which provides a succinct but authoritative reference to words phrases and terms encountered in the construction industry many of the entries give a substantial commentary on a variety of matters you always wanted to know about but never got round to finding out arbitration

this work focuses on the rights of the owners of buildings under construction topics include the design agreement the contract for general construction and the construction management agreement it is geared for use by attorneys and contains sample forms

the joint contracts tribunal s jct standard form of building contract one of the most common standard contracts used in the uk to procure building work is updated regularly to take account of changes in legislation and industry practice and relevant court decisions from litigation the jct 05 standard building contract law and administration is a second edition to the authors earlier award winning the jct98 building contract law and administration and clarifies complex issues surrounding obligations and rights under the contract this makes it an essential reference for construction professionals employers contractors and lawyers new to construction seeking to update and consolidate their knowledge the book also provides the knowledge and understanding of the contract which are a fundamental part of the education of most students who go on to

become managers and leaders in the construction industry it thoroughly works through the provisions of the contract in simple language using case law examples and relevant statute to demonstrate approaches to its interpretation

this title helps clarify complex areas of the jct 05 standard building contract making it an essential reference for professionals seeking to update their knowledge the book works through the contract issues thoroughly yet clearly using case law examples to demonstrate the latest amendments in regards to the construction act

provides a guide to the general principles of scottish law relevant to construction contracts and the main provisions of the standard forms of construction contract used in scotland including the obligations of employers and contractors certification payment ending a construction contract remedies subcontracts collateral warranties insurance dispute resolution regulatory matters the new edition has been substantially updated and expanded to take account of the latest editions of the scottish standard building contracts and recent case law specific updates have been driven by the following changes to legislation and standard contracts local democracy economic development and construction act 2009 and the relative scheme for construction contracts arbitration scotland act 2010 recognising the significant increase in use of nec3 standard forms of contract references to nec3 provisions have been introduced throughout the relevant chapters so that each now covers the common law the sbcc provisions and the nec3 provisions it also features new chapters on litigation competition the bribery act 2010 and guarantees and bonds from reviews of previous editions very approachable and readable i would particularly recommend this book to non legal construction professionals construction engineering law an informative textbook for the practitioner a significant contribution to knowledge arbitration a highly competent textbook which would be of value for industry professionals with no legal background construction law

the joint contracts tribunal s standard form of building contract is the most common contract used in the uk to procure building work understanding it is a core part of any construction student s degree and a vital part of the working life of professionals in the construction industry the jct98 building contract works through the contract systematically explaining it in easy to follow language covering all contract issues thoroughly and illustrating with case law examples the current situation and latest amendments it is ideal reading for both the student of construction and the professional seeking to update their knowledge

construction law can be a minefield of complications and misunderstandings in which professionals need answers which are pithy and straightforward but also legally rigorous in construction contracts questions and answers specialist in construction law david chappell answers architects and builders common construction contract questions questions range in content and include extensions of time liquidated damages loss and or expense practical completion defects valuation certificates and payment architects instructions adjudication and fees chappell s authoritative and practical advice answers questions ranging from simple queries such as which date should be put on a contract through to more complex issues such as whether the contractor is entitled to take possession of a section of the work even though it is the contractor s fault that possession is not practicable in answering genuine questions on construction contracts chappell has created an invaluable resource on which not only architects but also project managers contractors qss employers and others involved in construction can depend

powell smith and furmston s building contract casebook the interaction between general principles and the provisions of the standard building and construction contracts is a central feature of construction law the major part of the law is laid down in decided cases and construction professionals should be familiar with these cases but the

information is scattered throughout a large number of law reports the fifth edition of powell smith and furmston s building contract casebook is designed to help construction professionals become familiar with those key cases it brings together a wide range of cases on the main aspects of the law of construction contracts states the principle established by each case and gives a summary of the facts and the decision for the majority of cases verbatim extracts from the judgment are included the casebook presents the leading cases on each topic together with many lesser known but important decisions a number of useful decisions from the commonwealth are also included throughout the author s approach is practical rather than academic

with a chapter on public procurement by sarah hannahford a commentary on jct forms of contract by adrian williamson and a commentary of the infrastructure conditions of contract by john uff

this book explores the basics of contracts as applied to the construction industry

the joint contracts tribunal standard form of building contract jct 98 is now a well established and widely used form that is not to say however that it is always well understood it is a large complex contract with a number of particularly difficult provisions it is not surprising therefore that not much guidance has been published on the form this book first written by john parris in 1982 and revised in 1985 was widely regarded as a valuable commentary on the standard form unavailable for some years it has now been substantially updated and completely rewritten by david chappell major changes have occurred since the last edition including a raft of amendments to the contract itself much new legislation including the housing grants construction and regeneration act 1996 and substantial new case law the book covers all these as well as the complex performance specified work provisions and the difficult problems of nomination the nominated sub contract conditions are referred to where appropriate and the book contains guidance on related matters such as warranties letters of intent and quantum meruit the book is not simply a re writing of the contract in simply terms it contains very valuable insights and much needed guidance on some of the lesser known implications of the current form the book will provide a valuable reference for clients professional advisers and contractors as well as for lawyers needing an introduction to the contract
