throughout history humanity has faced countless challenges and obstacles many of which have led to division and separation among people from the earliest days of civilization individuals and groups have been forced to set boundaries and establish rules in order to protect themselves from aggressors and ensure their survival despite these divisions it is important to recognize that humanity is one species united by a shared evolutionary history the ability to use collective strength to overcome these challenges and achieve incredible feats has been demonstrated throughout history however to truly harness this power it is essential to be aware of a shared humanity and recognize that all humans are part of one global community this concept of a global humanity should not be confused with the idea of a globalized society which is often focused on internationalized processes such as economic growth supply chains and trade instead the idea of a global humanity refers to a sense of shared humanity and interconnectedness across all levels of society individuals who see themselves as part of this global community represent the strongest and largest group of humanity yet to exist a global citizenship based on humanistic collaboration and cooperation is the key to counter concepts such as populism narcissism and the misuse of nationalist ideologies that have been used to divide and discriminate the benefits of cooperation and collaboration far outweigh the negative consequences of concepts that seek to exploit and oppress others in the long run a global society protects the diversity of cultures customs people and thoughts against these negative concepts it is a growth vision that brings humanity together the world is currently in the midst of a transformative period as the concept of a global society is rapidly gaining momentum the rise of the global society is being driven by a number of factors including advances in technology increased interconnectedness and a growing awareness of the need for cooperation and collaboration to address the challenges facing humanity

the debate about globalization is increasingly central to both sociology and international politics but there have been few attempts to consider its implications for the essential frameworks of the disciplines in this pathbreaking book martin shaw places the concept of global society at the centre of analysis he argues that this is now the only context in which it makes sense to talk about a society or in which to discuss problems of international relations shaw examines the recent sociological contribution to international relations thinking

about the state and offers a broad critique of international relations theory he claims that while its issue agenda may have broadened its conceptual base is still narrow he argues for a comprehensive introduction of the concept of society into thinking about security and that global society rather than international society is the relevant framework for understanding world politics the final section of the book looks at the political perspectives which are entailed by a global society approach shaw maintains that classical socialist thinking on war and the international order is outmoded he puts the case for a new politics of society and international institutions and concludes with a wide ranging theory of global state intervention

taking issue with those who see recent social transformations as an extension of modernity the author contends that social theory must confront an epochal change from the modern era to a new era of globality in which human beings can conceive of forces at work on a global scale and in which they espouse values that take the globe as their reference point the book begins by assessing the problems of writing about modernity showing how narratives of an endlessly self perpetuating modern age were intrinsic to the modern project the attempt by enlightenment philosophers to transform the everyday world in accord with science and logic under the auspices of the

nation state now we are beginning to realize that the nation state and the modern project cannot renew themselves endlessly through expansion instead the author contends the age has culminated in its own dissolution and globality has supplanted modernity as the basis for action and social organization in theorizing the global age he considers the worldwide environmental consequences of aggregate human activities the reconception of human security in the age of nuclear weapons technological advances in communication systems the rise of a global economy and the growing reflexivity of global consciousness as people and groups begin to refer to the globe as the frame for their beliefs the book concludes by examining the consequences of the global age thesis for politics identifying a new popular construction of the state that the author terms performative citizenship in the modern age the nation state was the central power and citizens were beneficiaries of that power with rights and duties in the global age citizens respond to the lack of central power by creating or performing the state themselves the global managerial class uses the skills learned in the bureaucracy of the nation state to bring pressure on national governments in the interests of global economic environmental or human rights issues

global society cosmopolitanism and human rights is the outcome of a decade long scholarly project the point of convergence emerging from the analyses contained in this volume is that 'global society' 'cosmopolitanism' and 'human rights' are likely to constitute the basis of present and future ways of life the 'project for humanity' of the future while resting on local social associations will have 'globality' as its reference a world dominated by globalisation processes obliges the social actors on the one hand and the institutions on the other to consider matters regarding issues of belonging social ties and areas of action that go well beyond the classical nation state picture it is therefore essential to understand how human communities individuals and institutions relate to globality and its outcomes particularly the 'disenclavement' unlocking of the contemporary world this volume provides detailed analyses of some of the dominant traits of the global society the main dynamics of world unification cosmopolitan lifestyles and mind sets and human rights as a form of regulation of human relations within this kind of society the different articles are grouped according to their methodological features the first part of the book is devoted to essays of a theoretical kind the second to prevalently empirical

Barry Buzan proposes a new approach to making international relations a truly global discipline that transcends both eurocentrism and comparative civilisations. He narrates the story of humankind as a whole across three eras using its material conditions and social structures to show how global society has evolved. Deploying the English school's idea of primary institutions and setting their story across three domains: interpolity, transnational and interhuman. This book conveys a living historical sense of the human story whilst avoiding the overabstraction of many social science grand theories. Buzan sharpens the familiar story of three main eras in human history with the novel idea that these eras are separated by turbulent periods of transition. This device enables a radical retelling of how modernity emerged from the late 18th century. He shows how the concept of global society can build bridges connecting international relations, global historical sociology and global world history.

A stimulating appraisal of a crucial contemporary theme. This comprehensive analysis of globalization offers a distinctively cultural perspective on the social theory of the contemporary world. This perspective considers the world as a whole going beyond conventional distinctions between the global and the local and between the universal and the particular. Its cultural approach emphasizes the political and economic significance of shifting conceptions of and forms of participation in an increasingly compressed world. At the same time the book shows why culture has become a globally contested issue. Why, for example, competing conceptions of world order have political and economic consequences.
