this textbook presents a comprehensive analysis of organizational behavior in sport organizations from a practitioner's perspective. It covers issues related to managing employees and work teams as well as organizational structure and culture in sport. The book has four sections: organizational behavior in the sports industry, getting to know employees and volunteers of sport organizations, work groups and teams, and understanding the organization. Each chapter begins with a practitioner interview describing a challenge that was overcome by their organization. That example is used to highlight applicable theories and interventions used in the industry. Additional examples or theories are discussed to provide students a broad picture of managerial issues in the sports industry and provide alternative approaches to intervention. Illustrated in the practitioner interview, the case studies offer the opportunity to practice and apply the ideas to real world scenarios in the sports industry. Students using this book will gain an understanding of how managers and leaders apply theory to communicate with and engage employees to foster desired organizational cultures while being challenged to address common issues using cases and hypothetical situations.

master's thesis from the year 2015 in the subject sport, sport economics, sport management, grade 1, 8 sport academy cologne, institut für europäische sportentwicklung und freizeitforschung, language: english, abstract: the aim of this research lies besides an analysis of the situation of the youth sport system in austria on the development of quality indicators of youth sport on a national level. An extensive review of existing literature on youth sport policy at national and european level will lay the fundamental basis for further research. Sports policy and policy making processes theory will be displayed in the theoretical framework. The research questions therefore investigate what quality criteria could be proposed to fulfill an effective youth sport policy. Therefore, preliminarily the current situation and structures of the youth sport in austria will be analyzed as groundwork. Empirical data of conducted experts interviews within the area of youth sport will be evaluated.
