for about one hundred years pan africanism as a social cultural economic political and philosophical idea thrived towards the tail end of the twentieth century however it waned but in more recent times there has been noticeable resurgence and as we approach the second decade of the twenty first century there are indications of significant transformations vis à vis the role and place of pan africanism and pan africanists consequently this book offers a new further and better understanding of pan africanism not just from the traditional african and african american points of view but also from a global perspective it does so by offering an analysis of its early years in terms of the personalities ideas and conferences that shaped it it also examines many of the factors that brought about its decline and its eventual rebirth contributing to this seminal work are scholars of different but complementary styles and intellect who deviate from the more traditional or obvious approaches for instance one of the chapters explores pan africanism from the geographic perspective while another examines the role and place of women in the pan african movement there are also voices that advance the conversation from the regional and continental viewpoint hence chapters that investigate the status of pan africanism in latin america in the caribbean and islam and pan africanism in the modern world ethnonationalism and xenophobia are also part of the treatise because increasingly these injurious phenomena are reemerging in africa s landscape and consciousness in an increasingly interdependent and interrelated world this book also suggests that pan africanism will undergo a metamorphosis problems and challenges will be seen and tackled from

the globalization and global common perspective pan africanism in modern times goes beyond the historicity of pan africanism and examines the challenges concerns and constraints it faces and also examines it from an inclusive perspective to have a broader understanding of this phenomenon and its future trajectory

long praised by instructors and students for its accessible regional chapter structure readability and sustained attention to social history the tenth edition of a history of world societies includes even more built in tools to engage today s students and save instructors time this edition features thoroughly revised chapters by new author and latin american specialist jerry dávila an expanded primary source program in the text and online and the best and latest scholarship throughout the tenth edition presents launchpad a new intuitive ebook and course space with learningcurve adaptive quizzing and a wealth of activities and assessments that help students make progress toward learning outcomes launchpad features primary source activities map and visual activities adaptive and summative quizzing and a wealth of optional resources including carefully developed online document projects for each chapter with auto graded exercises
