this collection of essays by leading scholars of archaeology and prehistory examines the emergence of permanent human settlements and the social political and religious ideas that may have accompanied this development two introductory lectures sketch the emergence of man and his development as hunter farmer and fisherman then taking civilization in its most precise sense separate essays review the evolution of urban societies in the near east europe china and mesoamerica final lectures address the role of religion in early human societies and the development of writing in the old world this distinguished and highly accessible collection will appeal to both the specialist and the interested general reader

in this interesting and highly informative bookwe are pre sented with an impressive view of the great movements in time of cultures and civilizations as they flowered and died among the many discussed in this book are the sumerian babylonian mycenaean hittite

assyrian the always fascinat ing etruscan and the inca aztec and maya of the americas defining civilization as the city state inhabited by specialists politicians priests craftsmen laborers necessary in a society learning to cope with the complexities of urban life mr riley has made use of the most recent results of anthro pological research and archaeological discovery in tracing man s cultural evolution among the important aspects of this study of our begin nings is the evidence that man tends to develop in channeled directions toward civilization mr riley suggests that within each hemisphere though probably not between hemispheres this trend is reinforced by diffusion from center to center how ever coverage of the old world and the new in the book is well balanced and includes much new material special chap ters are devoted to the most important areas such as egypt mesopotamia and indus the levant crete the greeks the western mediterranean china mesoamerica and the central andes the book is illustrated with drawings and photographs as well as with maps and charts

the term civilization comes with considerable baggage dichotomizing people cultures and histories as civilized or not while the idea of civilization has been deployed throughout history to justify all manner of interventions and sociopolitical engineering few scholars have stopped to consider what the concept actually means here brett bowden examines how the idea of civilization has informed our thinking about international relations over the course of ten centuries from the crusades to the colonial era to the global war on terror this sweeping volume exposes civilization as a stage managed account of history that legitimizes imperialism uniformity and conformity to western standards culminating in a liberal democratic global order along the way bowden explores the variety of confrontations and conquests as well as those peoples and places excluded or swept aside undertaken in the name of civilization concluding that the west and the rest have more commonalities than differences this provocative and engaging book ultimately points the way toward an authentic intercivilizational dialogue that emphasizes cooperation over clashes

discover the peoples and cultures from the stone age two million years ago through the egyptians and babylonians

reprint of the original first published in 1875

national museums and the origins of nations provides the first international survey of origins stories in national museums and examines the ways in which such museums use the distant past as a vehicle to reflect the concerns of the political present offering an international comparison of institutions in china north and south america the middle east europe and australia the book argues that national museums tell us more about what sort of community a nation wishes to be today than how and why that nation came into being watson also reveals the ways in which narrative and exhibition design attempt to engage the visitor in an emotional experience designed to promote loyalty to and pride in the nation or to remind visitors who are not citizens that they do not belong these narratives of origin are it is claimed based on so called factual accuracies but this book reveals that they are often selective emotional and rarely critiqued within institutions at a time when

nationalism is very much back on the political agenda this book highlights how museums reflect current political and social concerns national museums and the origins of nations will appeal to academics and students engaged in the study of museums heritage politics nationalism and history

the history of civilization volume 1 by amos dean offers a comprehensive exploration of early human societies and their development beginning with the ancient world dean meticulously examines the rise of civilizations tracing their social political and cultural evolution this volume provides invaluable insights into the foundational elements that have shaped human history detailing the progress of early societies dean s work emphasizes the importance of understanding historical context for interpreting contemporary social structures dean s careful analysis and accessible writing style make this a compelling read for anyone interested in the origins of civilization and the forces that drive societal change this seminal work remains relevant for its thorough investigation of humanity s early progress this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work was reproduced from the original artifact and remains as true to the original work as possible therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work as a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

the middle east in modern world history examines how global trends over the last 200 years have shaped the middle east and how these trends were affected by the region s development covering a key period in the history of the middle east this book highlights three major trends within the region s development over the past two centuries the role of the region as a strategic conduit between east and west the development of the region s natural resources especially oil and the impact of a rapidly globalizing world economy on the middle east this new edition extends coverage to the present day and includes more thematic and interpretive discussion on the impact of global migration and the evolution of the roles of women it also provides more theoretical insights into current historical research and recent developments in the region firmly placing these developments within their historical context clearly written and supported throughout by maps images discussion questions and suggestions for further reading as well as including a comprehensive chronology and glossary that enable readers to develop a clearer picture of political economic social and cultural life within the region the middle east in modern world history is the perfect textbook for all students of the history of the modern middle east within a global context

around 10 000 years ago the small group of paleolithic hunter gatherers that had walked the earth for millennia gave way to increasingly complex neolithic villages of agricultural producers around 4 000 5 000 years later people had gathered in urban settings established laws and developed cultural and political systems this remarkable change took place in mesopotamia on the north china plain in the indus valley in the nile valley on aegean islands in africa and in america what motivated these new forms of culture and social and political complexity why did they appear where they did this course brings together findings from both archaeological and anthropological scholarship to answer these questions and to deepen our understanding of the first human states and civilizations
