this volume explores the process of heritage making and its relation to the production of touristic places examining several case studies around the world most existing literature on heritage and tourism centers either on its managerial aspects the tourist experience or issues related to inequality and identity politics this volume instead establishes theoretical links between analyses of heritage and the production and reproduction of places in the context of the global tourist trade the approach adopted here is to explore the production of heritage as a complex process shaped by local and global discourses that can have a deep impact on several policies and legislations heritage itself has now become not only a global discourse but also a global practice which may eventually lead to the use of heritage as a field for hegemony from these perspectives heritage making may be incorporated in the world economy mainly through the global tourism trade the chapters in this book stress the need for identifying the intrinsic political implications of these processes relocating their study in political

economic and social settings combined with a diversified set of theoretical approaches and research methods guided by a common thematic rationale the making of heritage is at the forefront of current debates about heritage

the spread of english as an international language along with the desire to maintain local languages lead us to consider multilingualism as the norm rather than the exception consequently bi multilingual education has bloomed over the last decades this volume deals with one such type of education currently in the spotlight as an essentially european strategy to multilingualism clil content and language integrated learning in which curricular content is taught through a foreign language the book contributes new empirical evidence on its effects on linguistic and attitudinal outcomes focusing on bi multilingual learners who acquire english as an additional language moreover it presents critical analyses of factors influencing multilingual education the effects of clil on both language and content learning and the contrast between clil and other models of instruction the research presented suggests that clil can greatly enhance language acquisition in multilingual settings

this monograph presents the state of art of the geologic knowledge about the spanish coast obtained through scientific research in the last 30 years from a general point of view coasts are the most quickly changing systems of the earth this is critical since many human resources such as the main part of economic and social activities are located in the coastal areas especially in the case of spain these coasts include cities wide industrial areas including harbor complexes important ecologic systems and our main economic resource tourism understanding the dynamic functioning of each element of this coast is vital for correct future coastal management so as to solve problems derived from bad plans developed in the last decades of the twentieth century this is a valuable text for advanced graduate students and coastal researchers which connects the specific dynamic functioning of the main spanish coastal environments and their relationships with human activities
