helping you better understand the processes instruments and methods of aerosol spectroscopy fundamentals and applications in aerosol spectroscopy provides an overview of the state of the art in this rapidly developing field it covers fundamental aspects of aerosol spectroscopy applications to atmospherically and astronomically relevant problem

the imaginaries of northern landscape have not remained static in the era of ecological crisis but play a pivotal function within the geopolitics of visual representation such imaginaries can sanction those dominant discourses that frame environmental catastrophe as the consequence of undifferentiated human activity but it is argued they also have the capacity to represent a complexity and heterogeneity frequently absent from this broad discursive field the contributors to this volume engage with the practice curation and utilization of photography and other lens based media to examine the critical role of visual culture in shaping and interrogating conceptions of environmental catastrophe

this book constitutes the refereed proceedings of the international conference on biometrics ich 2007 held in seoul korea august 2007 biometric criteria covered by the papers are assigned to face fingerprint iris speech and signature biometric fusion and performance evaluation gait keystrokes and others in addition the volume also announces the results of the face authentication competition fac 2006

the second in a series offering insight into arabic advances in science culture and the arts

this book deals with the philosophy of ibn sina avicenna as he was known in the latin west a persian muslim who lived in the eleventh century considered one of the most important figures in the history of philosophy although much has been written about avicenna and especially about his major philosophical work al shifa this book presents the rationalist avicenna in an entirely new light showing him to have presented a theory where our claims of knowledge about the world are in effect just that claims and must therefore be underwritten by our faith in god his project enlists arguments in psychology as well as in language and logic in a sense the ceiling he puts on the reach of reason can be compared with later rationalists in the western tradition from descartes to kant though unlike descartes he does not deem it necessary to reconstruct his theory of knowledge via a proof of the existence of god indeed avicenna s theory presents the concept of god as being necessarily presupposed by our theory of knowledge and god as the necessary being who is presupposed by an existing world where nothing of itself is what it is by an intrinsic nature and must therefore be as it is due to an external cause the detailed and original analysis of avicenna s work here is presented as what he considered to be his own or oriental philosophy presenting an innovative interpretation of avicenna s thought this book will appeal to scholars working on classical islamic philosophy kalām and the history of logic

this book disk package helps programmers write better code in less time using the latest software development techniques the authors include tools and code samples in c and ada programmers will learn to boost their productivity with less than half the effort required by traditional programming methods

alex oliver and timothy smiley provide a new account of plural logic they argue that there is such a thing as genuinely plural denotation in logic and expound a framework of ideas that includes the distinction between distributive and collective predicates the theory of plural descriptions multivalued functions and lists
