assembles key documents and firsthand accounts that are emblematic of american life from the end of world war ii designed to complement a core text for a typical post 1945 us history course this book offers coverage of domestic and foreign societal and cultural issues grouped together chronologically in a thorough reappraisal of the white collar and corporate crime scene this second edition builds on the first edition to complete the criminal narrative in an outstanding reference resource

car safety wars is a gripping history of the hundred year struggle to improve the safety of american automobiles and save lives on the highways described as the equivalent of war by the supreme court the battle involved the automobile industry unsung and long forgotten safety heroes at least six us presidents a reluctant congress new auto technologies and most of all the mindset of the american public would they demand and be willing to pay for safer cars the car safety wars were at first won by consumers and safety advocates the major victory was the enactment in 1966 of a ground breaking federal safety law the safety act was pushed through congress over the bitter objections of car manufacturers by a major scandal involving general motors its private detectives ralph nader and a gutty cigar chomping old politician the act is a success story for government safety regulation it has cut highway death and injury rates by over seventy percent in the years since its enactment saving more than two million lives and billions of taxpayer dollars but the car safety wars have never ended gm has recently been charged with covering up deadly defects resulting in multiple ignition switch shut offs toyota has been fined for not reporting fatal unintended acceleration in many models honda and other companies have for years sold cars incorporating defective air bags these current events suggesting a failure of safety regulation may serve to warn us that safety laws and agencies created with good intentions can be corrupted and strangled over time this book suggests ways to avoid this result but shows that safer cars and highways are a hard road to travel we are only part of the way home

for more than 30 years the government has been ramming cars into walls in an effort to make car crashes safe the public has been conditioned to believe that seatbelts airbags and more crashworthy vehicles are the best ways to protect us from harm on the roads meanwhile the most basic strategies to deter dangerous driving and prevent crashes have been ignored it s no accident provides a rare glimpse into how the government got seduced by the promise of safe crashing it then examines the major factors involved in crashes today including speeding aggressive driving distracted e g cell phones and drowsy driving the author reveals that many dangerous behaviors are now legally promoted by businesses and that drivers who kill often walk away with just a small fine this well documented expose is a must read for anyone concerned about violent death and injury on our roads and how to stop it questions about this book or trouble with your order e mail info2@crashprevention.org

first published in 2004 volume ii provides the hard facts and the history behind the headlines significant 20th century events in the evolution of all aspects of business and commerce are described

in chronologically arranged articles the text of each article is divided into two sections summary of the event describes the event itself and the circumstances leading up to it and impact of the event analyzes the influence of the event on the evolution of business practice or on a major industry in both the short and long terms each article concludes with a fully annotated bibliography

this unique title draws together in one volume some of the best thinking to date on the pressing social and environmental challenges we face as a society these are the top 50 sustainability books as voted for by the university of cambridge programme for sustainability leadership s alumni network of over 3 000 senior leaders from around the world in addition to profiles of all 50 titles many of the authors share their most recent reflections on the state of the world and the ongoing attempts by business government and civil society to create a more sustainable future many of these authors have become household names in the environmental social and economic justice movements from rachel carson ralph nader and e f schumacher to vandana shiva muhammad yunus and al gore others such as aldo leopold thomas berry and manfred max neef are relatively undiscovered gems whose work should be much more widely known by featuring these and other seminal thinkers the top 50 sustainability books distils a remarkable collective intelligence one that provides devastating evidence of the problems we face as a global society yet also inspiring examples of innovative solutions it explores our deepest fears and our highest hopes for the future it is a must read for anyone who wants to tap into the wisdom of our age

this introductory american politics textbook highlights political controversies and debates that make politics compelling and shows that politics has the potential against formidable odds to solve crucial public problems what are the conditions in which america and other countries can promote justice and prevent tyranny what are the obstacles to positive change and importantly what are ways in which citizens can get involved this book explores the american political system its institutions people and groups with a focus on identifying the promise and peril of american politics leading with central questions and controversies of american politics the chapters cover all the key topics in american politics including the constitution federalism civil rights the presidency congress courts bureaucracy media parties and interest groups helping students understand how and why political events and processes occur this book is suitable for undergraduate courses on american government american politics and civics

a wide ranging and idiosyncratic look at sixty years of politics and film that uncovers how american movies have mirrored and even challenged anxieties and paranoid perceptions embedded in american society since the start of the cold war the first book to take a sweeping look at 60 years of film and analyze them thematically

american lawyers who refuse to fit the mold jacket subtitle

examines the fundamental principles of our legal system from a public choice perspective and compares its efficiency and accuracy with other systems it presents in full two controversial works by gordon tullock the logic of the law and the case against the common law as well as chapters from his trials on trial and other innovative articles highly critical of the us common law system tullock argues for various reforms even for its replacement with a civil code system

from the wright brothers to the election of nelson mandela this engaging reader friendly compendium from the authors of the enormously successful what every american should know about american history provides capsule summaries of the 200 most important events in world history since 1900
