the contributors look at how teachers can best help children to become effective thinkers and learners and how the various approaches to teaching thinking do or don t fit together

what is style and how does it relate to thought in language it has often been treated as something merely linguistic independent of thought ornamental stylishness for its own sake or else it has been said to subserve thought by mimicking delineating or heightening ideas that are already expressed in the words this ambitious and timely book explores a third more radical possibility in which style operates as a verbal mode of thinking through rather than figure thought as primary and pre verbal and language as a secondary delivery system style is conceived here as having the capacity to clarify or generate thinking the book s generic focus is on non fiction prose and it looks across the long nineteenth century leading scholars survey twenty authors to show where writers who have gained reputations as either stylists or as thinkers exploit the interplay between the what and the how of their prose the study demonstrates how celebrated stylists might after all have thoughts worth attending to and that distinguished thinkers might be enriched for us if we paid more due to their style

more than reversing the conventional categories this innovative volume shows how style and thinking can be approached as a shared concern at a moment when especially in nineteenth century studies interest in style is re emerging this book reevaluates some of the most influential figures of that age re imagining the possible alliances interplays and generative tensions between thinking thinkers style and stylists

bovine tuberculosis is seriously damaging the uk dairy and beef industry many farmers believe culling badgers must be part of the solution but in 2013 a record 300 000 people signed a downing street petition asking the government to stop planned culls of badgers in somerset and gloucestershire fuelling media controversy and signalling the beginning of a social conflict that was acted out in studios streets fields and village halls across england the four year trial culls which began that year aimed to establish that culling was a viable way of tackling the disease but the widely divergent experiences and values of policy makers farming conservation and animal welfare supporters means that decades of science on the disease in badgers and the effects of culling has not helped resolve the dispute reporting on original uk research council funded social science this book takes on the challenge of understanding the contrasting views involved listening carefully to what the different protagonists have to say the book unpicks the way science is interpreted to sustain differing conclusions and considers how social science thinking could contribute the book develops a critical perspective on the increasingly important literature influenced by new materialism the social science response to the science wars and explores the extent to which a social movement around opposition to the culls is emerging in approachable prose this access all areas account describes the struggle to develop understanding through the messy process of research and the difficulties of scientific analysis and philosophical thought as such it provides a valuable resource for both research practitioners and teachers within the social sciences as well as an accessible way for biological scientists conservationists and farmers to reflect on the issues around

the management of disease in livestock and wildlife

departing from the sociological dual process model that divides thoughts into automatic and unconscious or deliberate and conscious occurrences this book draws on empirical cases to demonstrate the existence of automatic deliberation through research into the ways in which people address difficult subjects such as death and dying pedophilia and career decision making the author sheds light on a mode of thinking which is both habitual and effortful displaying a combination of habituated understandings and conscious deliberation advancing a blended view of cognition by which individuals draw on schemas and frames to think through complex topics this volume will appeal to sociologists and psychologists with interests in cognition and the ways in which we make decisions

understanding what family means and how best to support families depends on challenging politicized assumptions that frame ordinary families in comparison to an imagined problematic other learning from the perspectives of people who were in care in childhood this innovative book helps redefine the concept of family linking two longitudinal studies involving young adults in england it reveals important new insights into the diverse and dynamic complexity of family lives identities and practices in time through childhood and beyond paving the way for future policy and practice this book makes an important contribution to the theorization of family in the 21st century

take charge of your writing and dazzle your instructors it can be a challenge to achieve writing excellence but it doesn t have to be mysterious and it s definitely not impossible to present powerful ideas effectively in your college essays you need to break away from rigid rules and structures and start thinking on the page with this book you ll learn how to actively engage with a text analyze it draw informed conclusions and then make solid claims about what you have observed thinking
