with a foreword by fergus kerr and an afterword by rowan williams in an age when theology appears fragmented as never before this volume intends to show how von balthasar is one of the very few contemporary theologians to have demonstrated how the patterns and resources of the christian tradition have extraordinary pertinence today the authors represent a new generation of anglican theologians sympathetic to von balthasar s thought exploring it both in order to discover its fundamental dynamics and to see how it may be brought into new dialogues the authors represent the radical orthodoxy movement in anglican theology and are sympathetic to von balthasar s thought exploring it both in order to discover its fundamental dynamics and to see how it may be brought into new dialogues

this book demonstrates a number of approaches made by biblical scholars to find a theology of the christian scripture it then considers attempts to bridge the gap between exegesis and dogmatics by appeal to the discipline of fundamental theology and the doctrine of revelation it finds that for all the interesting questions raised one is forced back to the bible from where one must form the themes and concepts which have been developed by theologians through the ages and which with help from biblical historical critics can be made to refresh theology and serve the church this is done by examining the role of faith in the

two testaments and by considering how the bible's understanding of that which receives revelation is itself useful for the total enterprise of theology

adrienne von speyr in her book *Confession* and throughout her writings speaks of the confession of Jesus Christ. This is a startling use of the term because Christ never sinned. The author examines all the writings of von Speyr in the light of Roman Catholic soteriology and sacramental theology and in view of the influences that existed between her and Hans Urs von Balthasar. The author then shows how the theme of confession is central to von Speyr's writing, aids in illuminating her theology of Holy Saturday and the Paschal Mystery, and serves as the basis for the renewal of the sacrament of confession.

Balthasar is one of the most influential of Catholic twentieth-century theologians and his oeuvre is astonishing in its range and amplitude. This together with a style of writing that is cyclic rather than systematic makes his work difficult to assimilate. The author has overcome this obstacle by finding an integrating motif that makes coherent sense of the whole. That motif is the concept of form. The first section of the book deals with that form: its genesis, its meaning as a whole which is greater than the sum of its parts, and as a revelation of the mystery of being. Section two shows how when the concept is applied christologically it signifies the incarnate form of Jesus as expressing the glory of the Triune God, the source of being. Section three, which deals specifically with Balthasar's soteriology, demonstrates how because of his mission to save a sinful world the form of Jesus has to undergo suffering and death and become apparently formless while indicating that the main lines of Balthasar's theology are rooted in tradition. The book also illustrates the radicalness of his approach, his dialogue with theologians and philosophers both ancient and modern is discussed and evaluated throughout.

Art and theology are two different ways of making meaning. Art is a matter of inspiration and intuition; it needs neither standards nor guidelines; it does not follow predictable patterns nor is it determined by any specific goal. Theology is similar in that it generates meaning in order to understand and communicate faith; it explores the continuities and discontinuities between divine and human creations through metaphors, images, and the play of ideas. Unlike art, however, theology is primarily a matter of

reason it follows patterns of consistency and coherence and is shaped by the will to clarify and explain can art offer a way of understanding the nature of theology despite these differences the twentieth century swiss theologian hans urs von balthasar 1905 1988 wrote a seven volume masterpiece on theological aesthetics he restructured theology around basic aesthetic concepts like form and beauty the present study offers a critical analysis of balthasar s work against the background of contemporary debates on theological foundations the author approaches this task through a careful rereading of two of balthasar s key sources nicholas of cusa and friedrich wilhelm joseph schelling in this way the author rediscovers hidden undercurrents in modernity from renaissance aesthetics to german idealism the result is a theological aesthetics rooted in tradition and capable of understanding and communicating faith in the face of present day challenges

critically assessing balthasar s interpretation of scripture in the glory of the lord a theological aesthetics dickens demonstrates

the extent to which his approach to scripture abides by certain pre modern interpretive conventions

it was the conviction of the swiss theologian hans urs von balthasar 1905 1988 that the reservation of priestly ordination to men is intrinsically connected to the significance of the incarnation of christ as a male von balthasar was convinced that the incarnation of the eternal son as male plays an intrinsic role in his economic mission the present study is an attempt to understand the teaching of the magisterium reserving priestly ordination to men by an exposition and analysis of the revelatory significance of the incarnation of christ as male and the relation of his maleness to priestly ordination according to the theology of von balthasar

spirituality and morality is a provocative collection of essays that examine how spirituality and moral theology interact and influence each other on a wide variety of levels the eight essays written by catholic scholars explore the relationship between spirituality and moral theology from such important vantage points as history conversion vocation personal prayer liturgy right relationships docility to the spirit and discipleship they deal with the issues that emerge at the interface of theology and lived christian experience spirituality and morality although once intimately united have developed along different paths in the roman catholic theological tradition spirituality and morality offers a significant contribution by developing a practical means for rediscovering the living connection between two disciplines book jacket title summary field provided by blackwell north america inc all rights reserved

among hans urs von balthasar s vast corpus of theological works not one is found devoted specifically to an elaboration of a doctrine of god the father this study gathers and interprets balthasar s many scattered reflections on the mystery of the god of jesus christ especially those concentrated in his theological dramatic theory on its way to constructing an approach towards a theology of god s fatherhood several of the most significant current issues in theology are addressed in this study such as a

reinterpretation of divine omnipotence in terms of the father's all powerful powerlessness the question of the possibility of coexistence between infinite freedom and finite freedom an understanding of the immutability of god that allows for the father's being affected in some way by finite freedom and an account of the father's generative act that sees as integral to it a properly paternal modality of receptivity
