this book situated at the intersection of humanistic management aesthetics and artificial intelligence ai studies aims to explore how the emergence of ai driven solutions reshapes managerial paradigms alters human experiences within organisations and redefines the values guiding leadership communication and organisational development by adopting a cross disciplinary and multi paradigmatic perspective the volume seeks not only to identify the opportunities ai presents for enhancing human dignity and creativity at work but also to critically examine the

risks of dehumanisation aesthetic homogenisation and ethical displacement in the contemporary discourse on management theory and practice the accelerated integration of ai technologies has initiated profound transformations that challenge the traditional humanistic foundations of organisational life while ai is often perceived primarily through the lens of operational efficiency cost optimisation and decision making enhancement it also raises fundamental questions about the aesthetic ethical and relational dimensions of management in this context the book s critical research problem was formulated in the following manner understanding how ai driven aesthetics influence the humanistic character of management under what conditions ai can serve human centred goals rather than eroding them and what long term consequences ai integration may have for the emotional ethical and aesthetic dimensions of organisational life addressing these issues is essential for developing management practices that harmonise technological advancement with the humanistic values of autonomy authenticity empathy and aesthetic experience

reprint of the original first published in 1871 the publishing house anatiposi publishes historical books as reprints due to their age these books may have missing pages or inferior quality our aim is to preserve these books and make them available to the public so that they do not get lost
