this book captures the state of the art in visual research margolis and pauwels have brought together in one volume a unique survey of the field of visual research that will be essential reading for scholars and students across the social sciences arts and humanities the sage handbook of visual research methods encompasses the breadth and depth of the field and points the way to future research possibilities it illustrates cutting edge as well as long standing and recognized practices this book is not only about research it is also an example of the way that the visual can be incorporated into data collection and the presentation of research findings chapters describe a methodology or analytical framework its strengths and limitations possible fields of application and practical guidelines on how to apply the method or technique the handbook is organized into seven main sections framing the field of visual research producing visual data and insight participatory and subject centered approaches analytical frameworks and approaches visualization technologies and practices moving beyond the visual options and issues for using and presenting visual research eric margolis is an associate professor in the hugh downs school of human communication he is president of the international visual sociology association luc pauwels is professor of visual culture at the university of antwerp he is chair of the visual communication studies division of the ica and vice president of the international visual sociology association ivsa

methods and methodologies in heritage studies offers succinct easily accessible analyses of the disciplinary debates intellectual legacies and practical innovations that have led to understandings of heritage value today through a diverse collection of expert voices this volume invites readers to embark on their own journeys through appropriate methodologies for research and public engagement readers can draw on analyses of key problem areas and argumentative interventions to create a roadmap for the many disciplinary approaches that

converge on heritage studies oriented specifically towards learning and teaching heritage across archaeology anthropology history and geography this textbook is designed to support critical ethical heritage students researchers and practitioners praise for methods and methodologies in heritage studies this excellent volume fills a substantial gap for those looking for a single course book with which to teach a range of interdisciplinary methods to both undergraduate and postgraduate heritage studies students and should be seen as the go to on heritage research methodologies for students teachers and professionals alike it will have a significant impact in shaping the field of critical heritage studies for years to come rodney harrison professor of heritage studies ucl this textbook gathers a group of experienced specialists to discuss transformations of the field over time and present the latest trends and innovative debates based on their own experiences in various international contexts this volume will be of great interest for teachers students and for the general public andrés zarankin professor of archaeology federal university of minas gerais

who would be a feminist now contemporary political realism suggests that the essentials of the battle have already been won and the current generation of women entering university is used to seeing feminism presented as old fashioned extreme and unrealistic challenging such assumptions this important new book argues for the value of empirical investigations of gendered life and brings together the theoretical political and practical aspects of feminist methodology feminist methodology a demonstrates how feminist approaches to methodology engage with debates in western philosophy to raise critical questions about knowledge production b shows that feminist methodology has a distinctive place in social research c guides the reader through the terrain of feminist methodology and clarifies how feminists can claim knowledge of gendered social existence and d connects abstract issues of theory with issues in fieldwork practice back cover

the sage handbook of frankfurt school critical theory expounds the development of critical theory from its founding thinkers to its contemporary formulations in an interdisciplinary setting it maps the terrain of a critical social theory expounding its distinctive character vis a vis alternative theoretical perspectives exploring its theoretical foundations and developments conceptualising its subject matters both past and present and signalling its possible future in a time of great uncertainty taking a distinctively theoretical interdisciplinary international and contemporary perspective on the topic this wide ranging collection of

chapters is arranged thematically over three volumes volume i key texts and contributions to a critical theory of society volume ii themes volume iii contexts this handbook is essential reading for scholars and students in the field showcasing the scholarly rigor intellectual acuteness and negative force of critical social theory past and present

the use of images particularly photography has been steadily gaining popularity in academia but there has not yet been a book that deals with the act and process of photo taking in the field drawing upon 21 years of photographic experience and sociological research terence heng s immersive and narrative style will introduce photography as a qualitative method discuss the intricacies of challenges in and opportunities for using a camera in the field explore common themes and topics in social science research including photographing rituals space people and objects advise on navigating the always evolving technological landscapes of traditional digital and mobile photography visual methods in the field photography for the social sciences is a photography guide written for researchers by a researcher using in depth ethnographic case studies from research done in various urban environments this book will act as a crucial bridge for students in geography sociology education media studies and other social sciences to incorporate photography into their research repertoire

the second thoroughly revised and expanded edition of the sage handbook of visual research methods presents a wide ranging exploration and overview of visual research methods today aiming to exemplify diversity and contradictions in perspectives and techniques

this updated edition of the essential undergraduate text will introduce you to the most influential thinkers in the tradition of social theory with a new focus on the past fifty years

this book provides both an overview of and an insight into the rapidly expanding field of creative research methods the contributors from four continents range from doctoral students through to independent and practice based researchers to senior professors providing a clear view of the applicability of creative research methods in all types of research work chapters offer examples of creative research methods in practice and

advice on how to transfer or adapt those methods for different disciplines and settings research ethics and research quality are considered throughout this is a timely handbook which provides information for novice researchers and inspiration for experienced researchers and is essential reading for anyone interested in creative research methods

in contemporary western societies the visual domain has come to assume a hitherto unprecedented cultural centrality daily life is replete with a potentially endless stream of images and other visual messages from the electronic and paper based billboards of the street to the tv and internet feeds of the home the visual has become imbued with a symbolic potency a signifying power that seemingly eclipses that of all other sensory data the central aim of this four volume collection is to explore key approaches to visual research methods and to consider some of the core principles issues debates and controversies surrounding the use of visual techniques in relation to three key enterprises 1 documentation and representation 2 interpretation and classification and 3 elicitation and collaboration volume one principles issues debates and controversies in visual research serves as a theoretical backdrop to the field as a whole it introduces core epistemological ethical and methodological debates that effectively cut across the four volume collection as a whole volume two documentation and representation illustrates approaches to visual documentation and representation from classical documentaries to contemporary state of the art modes of visual anthropology and ethnography volume three interpretation and classification examines core debates surrounding and approaches to visual analysis volume four elicitation and collaboration explores participative approaches to visual inquiry

gubrium and harper provide instruction in visual and digital methodologies and show how they can contribute to building a participatory public engaged ethnography

critical methods in political and cultural economy offers students and scholars the first methods book for the critical school of international political economy ipe what does it mean to do critical research how do we write about the evidence we present this volume explores our shared critical ethic to demonstrate how methods are transformative and reimagines research strategies as both an embodied practice and a social process by presenting methodologically informed ways of researching enriched by real life accounts from academics

doing empirical research the volume seeks to forge a new collaborative path that builds a critical ethic and modes of inquiry within international political economy substantive chapters advance the pluralism of the critical school of cultural political economy and seek to articulate its nascent research ethic short autobiographical vignettes articulate the professional journeys of contributors who do critical political economy there is practical advice on how to develop evidence from an iterative reflexive research strategy using this innovative format offers a guide to methods in critical political economy by engaging directly with the people doing research not only as technical practice but also as lived experience the combination of research and practice presented throughout the book offers an extensive and authoritative framework for evaluating how methods are part of critical research and will be essential reading for all students and scholars of ipe

historians have become increasingly sensitive to social and cultural theory since the 1980s yet the actual methods by which research is carried out in history have been largely taken for granted research methods for history encourages those researching the past to think creatively about the wide range of methods currently in use to understand how these methods are used and what historical insights they can provide this updated new edition has been expanded to cover not only sources and methods that are well established in history such as archival research but also those that have developed recently such as the impact of digital history research the themes of the different chapters have been selected to reflect new trends in the subject including landscape studies material culture and ethics every chapter presents new insights and perspectives and will open researchers minds to the expanding possibilities of historical research

the second edition of this popular text confirms the book s status as an important forerunner in the field of visual methods combining the theoretical practical and technical the authors discuss changing technologies the role of the internet and the impact of social media presenting an interdisciplinary guide to visual methods they explore both the creation and interpretation of visual images and their use within different methodological approaches this clear articulate book is full of practical tips on publishing and presenting the results of visual research and how to use film and photographic archives this book will be an indispensable guide for anyone using or creating visual images in their research

feminist approaches to media theory and research tackles the breadth and depth of feminist perspectives in the field of media studies through essays and research that reflect on the present and future of feminist research and theory at the intersections of women gender media activism and academia the volume includes original chapters on diverse topics illustrating where theorization and research currently stand with regard to the politics of gender and media what work is being done in feminist theory and how feminist scholarship can contribute to our understanding of gender as a mediated experience with implications for our contemporary global society it opens for discussion how the research theory and interventions challenge concepts of gender in mediated discourses and practices and how these fit into the evolving state of contemporary feminisms contributors engage with discussions about contemporary feminisms as they are understood in media theory and research particularly in a field that has changed rapidly in the last decades with digital communication tools and through cross disciplinary work overall the book illustrates how the politics of gender operate within the current media landscapes and how feminist theorizing shapes academic inquiry of these landscapes

this book aims to explore counting as an often overlooked research tool for qualitative projects building off of a research method invented by the author in 1986 called counting schedules this volume provides instruction on how to use counting not only to enhance fieldwork results but also as a form of analysis for extant field notes interview results self reporting diaries or essays primary archival material secondary historical texts government sources and other documents and narratives including fictional work the author buttresses his discussion of counting schedules with extensive examples from previous fieldwork and research experiences drawing on three decades of anthropological experience in canada and the pacific islands counting as a qualitative method provides ethnographic researchers with the answer to the number one question asked by qualitative and non qualitative researchers alike how can a qualitative researcher know his or her results are reliable

at a time of growing pressure on health and social care services this book draws together contributions which highlight contemporary challenges for their management providing a range of contributions that draw on a critical management studies perspective the book raises macro level concerns with theory demographics and economics on the one hand as well as micro level challenges of leadership voice and engagement on the other

rather than being an attempt to define the wickedness of problems in this field this book provides new insights designed to be of interest and value to researchers students and managers contributions from international researchers explore four main topics identifying contemporary challenges in health and social care managing leading and following listening to silent voices in delivering change and new methodologies for understanding care challenges the concerns discussed in this volume are wicked in so far as they are persistent pernicious and beyond the curative abilities of any single organisation or profession such problems require collaboration but also new approaches to listening to those who suffer their effects this book demonstrates such listening through its engagement with policy makers leaders followers professions patients forgotten groups and silenced voices moreover it considers how future research might be transformed so as to shine a more inclusive light on wicked problems and their amelioration this is a timely and engaging book that challenges you the reader to think again about how we should look at engage with and support all those involved in health and social care

listening experiencing drawing or interpreting spaces narratives experiences visualizations and discourses can be helpful for the empirical investigation of spaces this interdisciplinary handbook presents a broad spectrum of established methods and innovative method development to capture and understand different facets of spaces instructive explanations and concrete examples make the varied qualitative methods of spatial research understandable and applicable across disciplines the theoretical and methodological aspects of qualitative spatial research form the framework of this handbook
