from the first america has considered itself a shining city on a hill uniquely lighting the right way for the world but it is hard to reconcile this picture the very image of american exceptionalism with what america s use of terror shows us that the united states has frequently resorted to acts of terror to solve its most challenging problems any war on terror stephen huggins suggests will fail unless we take a long hard look at ourselves and it is this discerning informed perspective that his book provides terrorism as huggins defines it is an act of violence against noncombatants intended to change their political will or support the united states government adds a qualifier to this definition only if the instigator is a subnational group on the contrary huggins tells us terrorism is indeed used by the state a politically organized body of people occupying a definite territory in this case the government of the united states as well as by such predecessors as the continental congress and early european colonists in america in this light america s
