this book combines a careful philosophical discussion of the rationale justifying self defence with a detailed discussion of the range of statutory self defence requirements as well as discussions of numerous other relevant issues i e putative self defense excessive self defense earlier guilt and battered women the book argues that before formulating definitions for each aspect of self defence necessity proportionality retreat immediacy mental element etc it is imperative to determine the proper rationale for self defence and only then to derive the appropriate solutions the f

in what circumstances should we be allowed to kill an intruder who breaks into our home should battered women be forgiven for killing their husbands this book analyses the questions raised by the argument of self defence and offers a theoretical framework for understanding the defence in the context of human rights norms

this book gives the reader a whole host of tools both practical and psychological which will help them achieve the status of a self defence master with thirty two chapters covering a range of subjects from fitness to body language to eye contact this book is not your run of the mill martial arts manual it is written by self defence expert and 6th dan tom hill

and those with an interest in the mental techniques of attack and defence will no doubt enjoy it greatly

us trade version very few combat manuals choose to explain the mechanics and principles on which techniques are based this book does not only are the essential principles explained but they are also illustrated with practical real world applications examples are drawn from proven martial arts including wing chun jeet kune do karate combat tai chi capoeira jujitsu bagua boxing and the filipino martial arts included in this book is a detailed section on dim mak or vital points which features a new simplified system for learning the point locations contents include advice on avoiding trouble before the fighting starts defence against knives and other armed attacks the use of dim mak vital points and pressure points locks throws takedowns strikes and kicking use of knives and everyday objects for defence selecting firearms for close range defence foreword by erle montaigne co author of the encyclopaedia of dim mak

within societies on a national level self defence may be used as a defence against the use of force in order to prevent crime against oneself a fellow human being or even property between societies on the international level self defence was traditionally linked to the concept of armed attack however in today s world new forms of aggression the concept of collective security and an increasing interaction between national and international law necessitate a reassessment of the concept of self defence the first session of the hague colloquium on the fundamental principles of law on the topic of self defence and honouring shabtai rosenne the first laureate of the hague prize for international law brought together experts from both academic and professional circles to debate the notion of self defence in the world of today both the colloquium and this subsequent publication make a valuable contribution to the development of the law by recognising the sources of the principle of self defence and the theories underlying it by following its path of evolution and by reassessing

its current status the essays are accompanied by a remarkably full and useful bibliography and by documentary materials many of which are difficult to obtain elsewhere this book will contribute constructively to stimulating scholarship and research in the field of self defence it provides food for thought and will hopefully inspire more colloquia and publications on the topic arthur eyffinger is director of judicap a research centre and publishing house in the field of internationalism alan stephens is director of research at the clemens nathan research centre sam muller is director of the hague institute for the internationalisation of law hiil

based on author s thesis doctoral university of oxford 2019 issued under title questions of value an evaluative study of self defense theory and practice in germany england and the united states

w h collingridge was one of the original students of yukio tani and taro miyake the game of ju jitsu of the japanese school of jiu jitsu originally published in 1910 tricks of self defense is an accomplished work by a great judoka of the time in simple precise and declarative descriptions the key elements of ju jitsu are explained as well as the many applications strictly dealing with self defence scenarios the book contains 31 stand up techniques or tricks and 9 ground defenses the majority of the methods are either locks or takedowns each single technique is described with a picture and accompanied by text

self defense is a countermeasure that involves defending the health and well being of oneself from harm the use of the right of self defense as a legal justification for the use of force in times of danger is available in many jurisdictions with no prior fighting experience required and no further ongoing training necessary so no need to join an expensive gym or martial art school this is an ideal starting point for the complete novice or anyone worried about the chances of ever

being involved in a street confrontation through this book you will be taught martial arts to self protect from attacks and what you need to survive on the streets in this day and age you will stop worrying about being involved in a street confrontation

if you have walked down a dark alley in the dark of the night with no companions you may identify with the feeling of your heart thumping against your chest you keep looking over your shoulders anticipating someone to mysteriously appear out of nowhere and pounce on you you feel uneasy and afraid that someone will attack you or mug you however if you have had the ability to defend yourself you would feel more confident and less afraid of being attacked this is also the reason why many people have signed themselves up for self defence classes self defence simply means to be able to fight off the aggressor and successfully protect yourself it is also a legal justification for any force exerted by someone when his or her wellbeing is being threatened there are various methods to do so hence if you are interested to learn how to defend yourself the first thing you should do is to learn more about the styles of self defence that you can choose from the most common method of dealing with aggressors would be to respond physically by dealing moves that will disarm him or throw him off long enough for you to escape when you choose to utilise this style of self defence you will be able to choose between fighting with your bare hands or with a weapon however besides using physical techniques you can also use verbal skills to convince the aggressor to back down this is a technique which may be preferred by ladies especially those who do not have sufficient strength to fight back regardless of whichever self defence method you prefer one thing is for sure by learning how to defend yourself successfully you will be able to prevent injuries and also increase your chances of surviving any assaults

do individuals have a positive right of self defense and if so what are the limits of this right under what conditions if any does this use of force extend to the defense of others these are some of the issues explored by dr uniacke in this comprehensive philosophical discussion of the principles relevant to self defense as a moral and legal justification for homicide this is a lucid and sophisticated account of the complex notion of justification revolving around a critical discussion of recent trends in the law of self defense

when is it right to go to war the most persuasive answer to this question has always been in self defense in a penetrating new analysis bringing together moral philosophy political science and law david rodin shows what s wrong with this answer he proposes a comprehensive new theory of the right of self defense which resolves many of the perplexing questions that have dogged both jurists and moral philosophers by applying the theory of self defense to international relations rodin produces a far reaching critique of the canonical just war theory the simple analogy between self defense and national defense between the individual and the state needs to be fundamentally rethought and with it many of the basic elements of international law and the ethics of international relations

the answer to combating crimes against women isn t as difficult as you might think all women can benefit from the self defence tips and hints in this informative book self defense isn t karate or judo or hours of precious time spent sweating in the training hall

this book by martial arts and self defence authority leigh simms llb hons 4th dan gives the reader a practical guide to the uk s self defence law in this e book you will learn when a person can and cannot claim self defence what reasonable force is and how it is determined by law what the law is in relation to pre emptive striking and much more i think it is the

best book on the market on this subject and it should be a part of your library if you are teaching self defence of even if you are remotely interested in the subject comprehensive and lifesaving geoff thompson all competent and responsible instructors will ensure they read this book iain abernethy 6th dan

originally published in 1943 combato was created by bill underwood during wartime for use in close quarter combat this unique system is a martial art and self defense system used in the armed forces law enforcement and for personal development combato techniques can be learned by anyone and are not based on physical strength or athletic ability the average person will benefit from the practice by learning practical self defense skills but also increase their self confidence and well being a great addition to any martial arts library

a walking stick is probably the only weapon the ordinary person is likely to have in his possession when attacked how many know how to use it to its best advantage
