a sweeping social history on walking from humanity's first steps to modern urban pavement pounders i have met with but one or two persons in the course of my life who understand the art of walking that is of taking walks who had a genius so to speak for sauntering henry david thoreau 1817 1862 everything is within walking distance if you have the time stephen wright 1955 for approximately six million years humans have walked the earth this is the story of how why and to what effect we put one foot in front of the other walking has been the primary mode of locomotion for humans until very recent times when we began to sit and ride first on horses and in carriages then trains and bicycles and finally cars trucks buses and airplanes rather than go on foot the particular way we saunter clomp meander shuffle plod along jaunt tramp and wander on foot conveys a wealth of information about our identity condition and destination in this fast stepping social history joseph a amato takes us on a journey of walking from the first human migrations to marching roman legions and ancient greeks who considered man a featherless biped from trekking medieval pilgrims to strolling courtiers from urban pavement pounders to ambling window shoppers to suburban mall walkers concentrating on walking in europe and north america and with particular focus on how walking differed according to social class amato distinguishes how where when who what and under which conditions people moved on foot he identifies crucial transformations in the history of walking including the adoption of the horse by the mounted warrior the rise of public display among european nobility and the building of roads and transportation systems which led to the inevitable ascent of the wheel over the foot

this book looks at how human upright mobility changed the way our ancestors traveled lived and thought though well explored this topic is only one small aspect of the myriad of topics contained in this fascinating book the author outlines the many great migrations battles crusades and pilgrimages that have been made by on foot most of these journeys and the

challenges while on these adventures are simply beyond our modern comprehension nonetheless the author paints an enlightening picture for the modern reader these topics alone would have made for a captivating book however the author has gone beyond all expectations and used this book to discuss the way walking and other means of transportation have been viewed by various social classes and how these views have changed a countless number of times over the centuries moreover this book examines changes in the definition of roads over time how these roads differed in urban and rural settlements and these changes effected the development of culture and lifestyle in rural and urban areas

few historians have written about walking despite its obvious centrality to the human condition focusing on the period 1800 1914 this book examines the practices and meanings of walking in the context of transformative modernity it boldly suggests that once historians place walking at the heart of their analyses exciting new perspectives on themes central to the long nineteenth century emerge walking histories 1800 1914 adopts a global perspective including contributions from specialists in the history and culture of great britain north america australia russia east central europe and south asia critically engaging with recent research the contributions within offer fresh insights for academic experts while remaining accessible to student readers this book will be essential reading for those interested in movement travel leisure urban history and environmental history

this volume provides a comprehensive general history of the state of pennsylvania beginning with native american tribes through its involvement in the american civil war histories of each county are also provided with a significant portion of the adams county history devoted to the town and battle of gettysburg
