this collection of essays is a compilation of the thought and  
work of w norris clarke s j a philosopher inspired by the  
thomistic tradition who in 45 years of teaching and writing has  
delved into many of the central problems of perennial philosophy  
and made a significant contribution to the ongoing history of  
american thomism the essays presented here reflect an internal  
unity each essay deliberately building on the positions put  
forth in the preceding ones as they progress systematically  
through the themes of metaphysics and philosophy of god clarke  
begins with an overall survey of what in aquinas s metaphysics  
is most relevant for today and then suggests the most fruitful  
starting point for a contemporary presentation of such a  
metaphysics the next five essays discuss key positions in  
metaphysics and are followed by two essays on the philosophy of  
god the final essay illuminates key themes in clarke s most

recent work on the human person clarke s examination of topics in all these areas is especially concerned with the notions of action and participation in existence as being central to the metaphysical study of reality this then leads to a close study of the often misunderstood thomistic doctrine of analogy and how it functions in the construction of a viable philosophy of god the overall spirit that permeates the volume is clarke s firm conviction that the philosophical thought of st thomas aquinas is an inexhaustibly rich and profound resource and his purpose is to share this conviction with contemporary philosophers in so doing clarke both reflects and triggers significant new directions in contemporary thomistic thought
