oriented toward the introductory student the inequality reader is the essential textbook for today's undergraduate courses the editors david b grusky and szonja szelenyi have assembled the most important classic and contemporary readings about how poverty and inequality are generated and how they might be reduced with thirty new readings the second edition provides new materials on anti poverty policies as well as new qualitative readings that make the scholarship more alive more accessible and more relevant now more than ever the inequality reader is the one stop compendium of all the must read pieces simply the best available introduction to the stratification canon

for every dollar owned by the average white family in the united states the average family of color has less than a dime why do people of color have so little wealth the color of wealth lays bare a dirty secret for centuries people of color have been barred by laws and by discrimination from participating in government wealth building programs that benefit white americans this accessible book published in conjunction with one of the country's leading economics education organizations makes the case that until government policy tackles disparities in wealth not just income the united states will never have racial or economic justice written by five leading experts on the racial wealth divide who recount the asset building histories of native americans latinos

african americans asian americans and european americans this book is a uniquely comprehensive multicultural history of american wealth with its focus on public policies how for example many post world war ii gi bill programs helped whites only the color of wealth is the first book to demonstrate the decisive influence of government on americans net worth

this volume provides a timely collection of the most germane studies and commentaries on the complex links between recent changes in national economies welfare regimes social inequalities and population health drs vicente navarro and carles muntaner have selected 24 representative articles organized around six themes from the widely read pages of the international journal of health services 2006 2013 articles that not only challenge conventional approaches to population health but offer new insights and robust results that critically advance public health scholarship part i applies a social conflict perspective to better understand how political forces processes and institutions precede and give rise to social inequalities economic instability and population health the need to politicize dominant neoliberal ideologies is emphasized given its explanatory power to elucidate unequal power relations the next four parts focus on the health impacts of growing inequalities and economic decline on government services and transfers part ii labor markets and employment conditions part iii welfare states and regimes part iv and social class relations part v part vi advocates for a more politically engaged approach to population health and presents alternative solutions to achieving egalitarian outcomes which in turn improve health and reduce health inequalities taken together the works in this volume reflect ijhs s collective commitment to publishing high impact studies inspiring fruitful debates and advancing the discipline in new and essential ways emerging and established researchers as well as students and professionals committed to health equity matters will benefit from this book s astute contributions

this book provides selections from the seminal works of karl marx max weber w e b du bois and charlotte perkins gilman that reveal some of the reasons why class race and gender inequalities have proven very adaptive and can flourish even today in the 21st century

this anthology examines the social construction of race class gender and sexuality and the institutional bases for these relations while other texts discuss various forms of stratification and the impact of these on members of marginalized groups ore provides a thorough discussion of how such systems of stratification are formed and perpetuated and how forms of stratification are interconnected the anthology supplies sufficient pedagogical tools to aid the student in understanding how the material relates to her his own life and how her his own attitudes actions and perspectives may serve to perpetuate a stratified system

this text reader focuses on laws and government solutions top down solutions in the u s that have been effective in solving problems the readings explore specific examples of progressive legislation and social policies and also examines historical trends and future prospects

our perennial bestseller offers an overview of the politics of monetary and fiscal policy productivity and investment and inflation and unemployment this expanded and revised edition includes chapters on international trade and finance and on major controversies in economics including the legacy of keynesianism in the united states and the basics of marxist economic theory each article is keyed to david colander s textbooks economics and macroeconomics

collection of readings on wealth and income distribution in the uk and usa includes historical trends a statistical analysis of the extent of inequality economic research on patterns of income and poverty theoretical perspectives etc and a comparison of the situation in the two countries bibliography pp 399 to 403 and statistical tables

the second edition of knowledge and power in the global economy examines how neoliberal and neoconservative policies are working in tandem to privatize and commercialize public schools it looks at how these policies and the agendas behind them have impacted the internal dynamics of school management teaching and learning as well as how they have transformed the external dynamics of education from a public good or service offered to serve public interests to a private

enterprise primarily serving private interests in addition to information critique and analysis multiple perspectives are provided that readers can draw upon to formulate an alternative vision of education as a crucial element of social change along democratic and egalitarian lines the first edition of this volume provided a critical encyclopedic approach to the rhetoric of educational reform as it developed from the 1980s through the 1990s critiquing its vocabulary elaborating the multiplicity of ways that the logic of neoliberalism and the emerging patterns of high stakes testing and accountability were impacting the curriculum and introducing ideas associated with alternative and liberatory educational projects since its publication in 2000 policy developments such as the no child left behind act of 2001 in the u s and others in the u k and other parts of the world have nationalized and intensified these patterns deepening the logic and extent of neoliberalism s hold over educational reforms at the same time it is impossible to understand the current crises in education solely in terms of neoliberalism the impact of neoconservatism must also be considered hence this second edition has a new subtitle the effects of school reform in a neoliberal neoconservative age this edition is structured around five themes political and social foundations anti educational foundations the set up anti educational foundations the trap classroom consequence democracy s path this volume will particularly interest scholars and professionals across the fields of educational foundations curriculum theory and educational policy and is well suited as a text for courses in these areas
