this study examines the critical challenges facing doctoral research in humanities and social sciences within the indian academic landscape through comprehensive analysis of existing literature and empirical evidence the research identifies three major concerns the prevalence of descriptive research lacking theoretical depth the proliferation of predatory journal publications and systemic barriers to publishing in reputable journals the findings reveal that 88 of journals in the university grants commission s approved list were deemed predatory with india contributing to 27 of global predatory journal publishers additionally the study highlights how institutional pressures for publication quantity over quality combined with inadequate research training and limited resources compromise research integrity and societal impact the research concludes that systematic reforms in academic evaluation metrics enhanced research training and stronger quality control measures are essential to elevate the standard of doctoral research in india

harness the strengths of every generation to create a church that endures open the lines of communication appreciate the experiences that shaped each generation in your church unite in one mission to impact your community and the world it may seem hard for younger christians to believe that people over 50 were raised during an era when 90 percent of americans identified as christian these older believers were once part of a majority group that understood the mission of the church was to take control of our culture to halt its evils at the same time christians under 50 have lived their entire lives perceiving themselves as a minority that needs to make credible their faith to a secular pluralistic culture these distinct experiences and perceptions have a profound impact on the priorities different generations have for church ministry it s no wonder that younger and older believers don t always see eye to eye but imagine what could be accomplished in the name of christ if we could better understand each other and turn that understanding into shared purpose and aligned priorities backed by thorough research this eminently practical and hopeful book from pastor and scholar bryan chapell shows you how to open the lines of communication appreciate the experiences that shaped each generation in your church and unite in one mission to impact your community and the world

neuroenhancement ne is a behavior conceptualized as the use of a potentially psychoactive substance to enhance ones already proficient cognitive capacities depending on the specific definitions used prevalence estimates vary greatly between very low 0.3 for illicit substances to astonishingly high 89 for freely available lifestyle substances these variations indicate that further research and more conceptual and theoretical clarification of the ne construct is dearly needed the contributions of this research topic aim to do just that specific questions addressed are how prevalent is ne behavior how can ne research profit

from the already more evolved field of social science research on doping in sports how is ne perceived by the public what psychological processes and variables play a role in the decision to neuroenhance a wide array of methodological approaches is used to investigate these questions the topics contributions range from theoretical to experimental accounts on ne and they utilize a diverse set of methods ranging from qualitative to neuroscientific approaches the research presented here represents a first step towards what we have labeled a psychological approach to ne by addressing the questions above this research topic hopefully advances our understanding of ne behavior as with every new field of research new answers always prompt new questions in light of what we know now about ne we hope that the findings presented here will be pursued by other researchers in the future clearly the endeavor to understand ne behavior has only just begun
