The manual is packed full of clear practical guidance on how to prepare financial statements in accordance with Ifrs. It includes hundreds of practical worked examples and extracts from company reports, as well as model Ifrs financial statements that help to illustrate the explanations and show exactly how even the most complex calculations and disclosures should be made.

This is a study and analysis of all generally accepted accounting principles (GAAP) for 2010, restating the original highly technical pronouncements in easy-to-understand terms while providing battle-tested implementation guidance and real world examples.
