the crisis of 21st century religion is upon us with fewer people remaining committed to traditional religions and most new religious movements in their infancy where does that leave the vast silent spiritual majority who find the old religions to be obsolete and the new religions to be not yet credible for everyday people who feel lost between a rejected religion of the past and a still obscure religion of the future thinking about religion in the 21st century suggests that there is indeed another way to look at religion fully informed by 21st century sensibilities that requires no sacrifice of the intellect or abandonment of moral sensibilities the old religions can be set aside and the religions of the future might not yet have evolved into something worthy of full commitment but there already exists a viable evolving alternative spiritual perspective grounded in the elements of everyday ordinary human experience already available

a layman s guide to religion is a provocative factual often humorous personal study of evolution and religion the author is unsparing in his contempt for all religions and cults and for the hypocritical rascals the pied pipers who sidetrack their innocent victims robbing many of them of their most productive years the author finds those who claim to speak for god while defrauding the elderly of their life s savings especially loathsome one scholar who prefers anonymity remarked after reading the manuscript that when published this one thin volume would contain more common sense than the hundred of thousand dusty works by so called theologians over the past several millennia the comment was most gratifying as the author would rather have the admiration of one intelligent person whom the author highly regards than the admiration and even reverence of a billion fools bold blunt and unflinching this thin volume cuts through millenia of b s the author s purpose is not offend one religion but to denigrate all of them and hopefully replace religion with reason and common sense targeting historical unpleasant facts in an engaging and humorous manner and the role of evolution the author shows where religion has today become a compost of hypocrisy and pretense and the root cause of all evil plainly this volume contains all you ever wanted to know about religion before you put the subject to rest and get on with your life

why should christians care about what atheists believe it is easy to discover what atheists have to say about christianity and christians pick up a book by any modern atheist writer read a few random pages and the reader will have a sampling of the criticisms atheists have regarding religion and people of faith a natural first response is the desire to set the record straight a person responding this way will quickly find themselves going in circles this is one point christians need to accept and understand from the christian s

perspective it serves no useful purpose when christians engage atheists in an attempt to set the record straight atheism is a worldview or a way of seeing the world just as the christian sees their christian faith as reasonable and rational the atheist has the same view of what they believe to be true atheists vary in their definition of what it means to be an atheist there are however common themes found in the beliefs of people identifying themselves as atheist it is common for example to find people identifying themselves as atheists to believe the natural world is all there is this of course excludes the supernatural and since god operates outside of nature god is supernatural and is therefore eliminated in the thinking of atheism how should the christian respond when atheists challenge christian beliefs how can the christian respond effectively unless the christian understands what atheists believe how can the christian respond unless the christian understands why atheists believe as they do the apostle paul tells christians to be ambassadors ambassadors need to understand the world in which they serve this is why christians should care about what atheists believe
