this magnificent book opens up a novel arresting position on matters that have been debated for thousands of years times literary supplement how do we judge whether an action is morally right or wrong if an action is wrong what reason does that give us not to do it why should we give such reasons priority over our other concerns and values in this book t m scanlon offers new answers to these questions as they apply to the central part of morality that concerns what we owe to each other according to his contractualist view thinking about right and wrong is thinking about what we do in terms that could be justified to others and that they could not reasonably reject he shows how the special authority of conclusions about right and wrong arises from the value of being related to others in this way and he shows how familiar moral ideas such as fairness and responsibility can be understood through their role in this process of mutual justification and criticism scanlon bases his contractualism on a broader account of reasons value and individual well being that challenges standard views about these crucial notions he argues that desires do not provide us with reasons that states of affairs are not the primary bearers of value and that well being is not as important for rational decision making as it is commonly held to be scanlon is a pluralist about both moral and non moral values he argues that taking this plurality of values into account contractualism allows for most of the variability in moral

requirements that relativists have claimed while still accounting for the full force of our judgments of right and wrong

the challenges we face are enormous but we can still secure a positive future for our planet and for everyone on it in what we owe the future philosopher william macaskill persuasively argues for longtermism the idea that positively influencing the distant future is a moral priority of our time it isn't enough to mitigate climate change or avert the next pandemic we can ensure that civilization would rebound if it collapsed cultivate value pluralism and prepare for a planet where the most sophisticated beings are digital and not human unapologetically optimistic and bracingly realistic this is the most inspiring book on ethical living i've ever read oliver burkeman guardian a monumental event rutger bregman author of humankind a book of great daring clarity insight and imagination to be simultaneously so realistic and so optimistic and always so damn readable well that is a miracle for which he should be greatly applauded stephen fry
