research paper undergraduate from the year 2011 in the subject business economics offline marketing and online marketing grade 1 0 northeastern university of boston language english abstract the objective of this paper is to analyze the emergence and the characteristics of collaborative consumption moreover this paper examines the causes and underlying motivations for using couchsurfing as one particular form of collaborative consumption by focusing on consumers lastly we will provide potential implications of this trend for commercial organizations in recent years economic life has changed more radically than in the past century altogether consumers and firms are getting away from the typical capitalistic principle of buyers and sellers the new economies are rather defined by users and suppliers ownership which was the underlying principle of decades of capitalism is not desirable anymore as it is considered outdated and out of place rifkin 2000 p 5 nowadays firms are outsourcing and leasing cars electronics and even people it is just not important to

own things anymore but simply to have access to resources product life cycles are becoming shorter and shorter and especially electronic goods are almost outdated shortly after their release therefore companies need to be flexible and react quickly the principle of ownership can just not fulfil the requirements of an ever changing and fast paced economy rifkin 2000 while consumers are still more reluctant towards this trend they are picking up on it car sharing or bike sharing for example is becoming more and more popular in order to simply save money and thus replace traditional ways of just buying goods furthermore people are increasingly aware of their negotiation powergroupon for instance is only able to offer all these blockbuster discounts because there is a huge mass of people behind it to negotiate big bargains the rise of the internet and modern communication is an important building block of developing this kind of network economy without modern communication it is just impossible to coordinate a network economy and to identify suppliers users and their needs rifkin 2000 this general trend of either sharing goods or getting access to it is called collaborative consumption

this is the ultimate source for anyone who wants a comprehensive view of how the sharing economy began and how it may fundamentally change capitalism across the globe the rise of the sharing economy exploring the challenges and opportunities of collaborative consumption examines the business phenomenon of the sharing economy giving readers a thorough analysis of this up and coming sector the book presents a detailed historical perspective of sharing and cooperatives followed by a discussion of societal factors predominantly technology that have facilitated the fast growth of collaborative consumption businesses additional chapters offer progressive perspectives on how companies can further commercialize sharing written for undergraduate and graduate students studying the collaborative market and for those with entrepreneurial aspirations this book provides important insight about technology facilities sharing peer to peer lending grassroots social entrepreneurial efforts the economics of the sharing economy legal and public policy issues and more

ensure conversations about collaboration get results ask any educational professional about collaboration and chances are they ll tell you it s one of their core values but this familiar sentiment doesn t always translate into meaningful professional experiences that help educators or their students grow addressing this critical gap head on this book lays out the theory and practice of collaborative professionalism through five international case studies the authors distinguish collaborative professionalism from professional collaboration by highlighting intentional collaborative designs and providing concrete examples for how to be more purposeful with collaboration additionally the book makes collaborative professionalism accessible to all educators through clear take aways including ten core tenets including collective efficacy collaborative inquiry and collaborating with students graphics indicating how educators can move from mere professional collaboration to the deep and transformative work of collaborative professionalism analysis of which collaborative practices

educators should start doing keep doing and stop doing collaboration can be one of your most powerful educational tools when used correctly and turned into action this book shows you how

in the rapidly evolving landscape of industry 5.0 integrating emotional intelligence into the industrial framework is becoming increasingly crucial organizations are trying to navigate this uncharted territory and seeking guidance on understanding implementing and ethically managing artificial emotional intelligence aei however the absence of a comprehensive resource addressing these complexities has left a significant void in academic scholarship and industrial practice human machine collaboration and emotional intelligence in industry 5.0 offers a holistic exploration of emotion recognition affective computing and human robot interaction it equips readers with the knowledge and tools to successfully integrate aei into industry 5.0 ensuring a harmonious collaboration between humans and machines this book is a go to resource for scholars industry professionals and decision makers seeking to leverage emotional intelligence in the fifth industrial revolution by addressing practical implementations ethical considerations and real world impacts

collaborative writing has attracted much attention in the last 25 years though it eludes clear definition in its simplest sense it is writing done by more than one person but in a broader sense even a work by one author involves collaboration the author typically builds on the work of others and revises the writing in response to feedback this feedback can come from a student's peers or teacher in a classroom setting it can come from experts and editors who assess a scholar's writing or it can come from colleagues and clients in the world of business this bibliography is a guide to research on collaborative writing published from the early 1970s to 1997 included are nearly 1000 annotated entries for books articles reports bibliographies and other materials these entries are clustered in two broad parts each of which contains numerous topical sections the first part of the book is devoted to collaborative writing in academic settings and covers such topics as classroom issues peer review and tutoring the role of computers and technology particular types of classes and ethical and gender concerns the second looks at collaborative writing in nonacademic settings included are works on corporate acculturation group dynamics policies and procedures industry university collaboration and technical reports entries are arranged alphabetically in each section and detailed author and subject indexes provide easy access to the material

this book is essential for anyone interested in knowing how science works nationally and internationally in the contemporary world it offers a comprehensive analysis of scientific collaboration and its relation to development and the productivity of scientists with specific reference to south africa in both the past and the present
