expression in pop rock music is a collection of critical and analytical essays written by today's top scholars on pop and rock music applying a wide variety of analytical techniques and critical approaches in the study of songs by artists such as tori amos david bowie james brown the cure genesis radiohead and frank zappa these essays tackle the musical text itself in coming to terms with political social cultural and stylistic issues expressed in the most popular music of the past half century it has been expanded in its second edition to include three new essays and other additions accounting for the changes to the popular music landscape since its first edition with particular attention paid to the rise of hip hop and country music

this book includes a discussion of the many possible definitions of popular music information on how popular musicians learn and specific examples of educational programs that incorporate popular music with suggestions on how to choose high quality repertoire from publisher's description

publisher description

psychedelic rock began in 1965 and was popular until around 1970 its most important centres were san francisco the city of its origin and london one of its chief features was the attempt to translate into musical terms the effects of hallucinogenic drugs especially lsd which had become available in artistic circles in the early 1960s and was legal until 1966 san francisco psychedelic music took its ideology from the folk music revival of the 1950s which many of its most important practitioners had participated in including jerry garcia of the grateful dead janis joplin of big brother and the holding company and members of the jefferson airplane the catalyst for the folk revival musicians to adopt the rock band format was the british invasion which began in 1964 with the arrival in america of the beatles psychedelic music is examined in relation to an original seven stage model

of style evolution that is developed in the thesis it looks beyond the heyday of the music tracing the legacy of its decline and eventual revival in the present the thesis offers detailed musical analyses that identify key structures or matrices in the evolution of the style much of the contextual evidence derives from original field work involving interviews with musicians and industry representatives who were part of the san francisco scene

this book presents an analysis of the medley of songs from the beatles abbey road in order to understand and explain the emergent musical form and to clarify the relationships between music recording and music composition drawing conclusions about musical form and practice in the recording process of the 1970s and beyond
