how blacks built america examines the many positive and dramatic contributions made by african americans to this country over its long history almost all public and scholarly discussion of african americans accenting their distinctive societal position especially discussion outside black communities has emphasized either stereotypically negative features or the negative socioeconomic conditions that they have long faced because of systemic racism in contrast feagin reveals that african americans have long been an extraordinarily important asset for this country without their essential contributions indeed there probably would not have been a united states this is an ideal addition to courses race and ethnicity courses

fascinating story of early american woodworking enthusiastically describes and clearly illustrates a wide array of axes saws planes hammers and other implements used by frontiersmen over 200 drawings and photographs

an historical overview of how government and markets have built america that displays how government helps actualize core political values

this book gives an account of how the u s freight transportation system has been impacted and globalized since the 1950s by the presence of the shipping container a globally standardized object the container carries cargo moving in international trade and it utilizes and fits within the existing transportation infrastructures of shipping trucking and railroads in this way it binds them together into a nearly seamless worldwide logistics network this process occurs not only in ocean shipping and at ports but also deep within national territories in its dependence on existing infrastructural systems though the network of container movement as it pervades domestic space is shaped by the history and geography of the nation state this global network is not invariably imposed in a top down manner to a large degree it is cobbled together out of national regional and local systems heins describes this in the american context examining the freight transportation infrastructures of railroads trucking and inland waterways and also the terminals where containers are transferred between train and truck the book provides a detailed historical narrative and is also theoretically informed by the contemporary literature on infrastructure and globalization

the literature on rural america to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns as a result the real rural america remains much misunderstood neglected or ignored by scholars and policymakers alike in response emery castle offers the changing american countryside a volume that will forever change how we look at this important subject castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands these authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity the authors are especially effective in demonstrating why rural america is so much more than just agriculture it is in fact highly diverse complex and interdependent with urban america and the international market place most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections to do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life

tracing the story of red lodge from the 1880s to the present christensen tells how a mining town managed to endure the vagaries of the west s unpredictable extractive industries economy she connects red lodge to a myriad of larger events and historical forces to show how national and regional influences have contributed to the development of local identities exploring how and why westerners first rejected and then embraced western images and how ethnicity wilderness and historic preservation became part of the identity that defined one town book jacket

provides historical coverage of the united states and canada from prehistory to the present includes information abstracted from over 2 000 journals published worldwide
