in his thought provoking discourse the discovery of the future delivered at the royal institution h g wells delves into the contrasting ways in which humans perceive and relate to time particularly the future he argues that while the past holds an undeniable sway over our lives shaping our morality politics and societal structures the ability to understand and predict the future is within our grasp

we were established in 2020 as an academic studies group the purpose of our group is to share academic information write academic books and share new views and ideas our group which started its activities with this mission has become an association in 2022 the academic studies group

is a group formed by faculty members from more than 20 countries our group consists of 800 academicians 500 of whom are from turkey and 300 from various countries of the world we held our first congress together with [a] university in may 2021 we held our second congress together with karabuk university in october 2021 we held our th[ir]d congress together with osmaniye korkut ata university in may 2022 iv the international congress of academic studies asc 2022 fall held in poland between 3 5 november 2022 hosted by alcide de gasperi university of euroregional economy poland face to face and online as the academic working group we are getting stronger with each congress we would like to thank the organizing committee and our authors for their support at the congress we hope to unite this cooperation under the roof of an institute or university in the coming years

the expectations hopes dreams as well as anxieties and fears of the youth are often marginalized this book presents answers to pivotal questions about the preferred individual and collective futures authors give the voice to young polish students who willingly and broadly describe their life projects and their desired world in the future qualitative and quantitative studies employed in the research document strong variations in students plans aims and opinions certainly their future visions may transfer you to unknown futures let s remember that always and everywhere various futures are possible which one is preferred by you

from the beginning of time humans have been driven by both a fear of the unknown and a curiosity to know we have always yearned to know what lies ahead whether threat or safety scarcity or abundance throughout human history our forebears tried to create certainty in the unknown by seeking to influence outcomes with sacrifices to gods preparing for the unexpected with advice from oracles and by reading the stars through astrology as scientific methods improve and computer technology develops we become ever more confident of our capacity to predict and quantify the future by accumulating and interpreting patterns form the past yet the truth is there is still no certainty to be had in this very short introduction jennifer gidley considers some of our most burning questions what is the future is the future a time yet to come or is it a utopian place does the future have a history is there only one future or are there many possible futures she asks if the future can ever be truly predicted or if we create our own futures both hoped for and feared by our thoughts feelings and actions and concludes by analysing how we can learn to study the future about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

thinking about the future is essential for almost all organizations and societies states corporations universities cities ngos and individuals believe they cannot miss the future but what exactly is the future it remains a mystery perhaps the greatest mystery especially because futures are unpredictable and often unknowable the outcome of many factors known and unknown the future is rarely a simple extrapolation from the present in this important book john urry seeks to capture the many efforts that have been made to anticipate visualize and elaborate the future this includes examining the methods used to model the future from those of the rand corporation to imagined future worlds in philosophy

literature art film tv and computer games he shows that futures are often contested and saturated with different interests especially in relation to future generations he also shows how analyses of social institutions practices and lives should be central to examining potential futures and issues such as who owns the future the future seems to be characterized by wicked problems there are multiple causes and solutions long term lock ins and complex interdependencies and different social groups have radically different frames for understanding what is at stake urry explores these issues through case studies of 3d printing and the future of manufacturing mobilities in the city and the futures of energy and climate change

this volume comprises the papers and debates of the second france ilo symposium on the future of work employment and social protection reflecting the aim of the symposium itself the book provides in depth reflections on work employment and social protection designed to be more than an account of the discussions this book is a useful tool for all those interested in labour market transition and the increasing importance of female labour for the future of the labour markets particularly in the developed world the book discusses the need for more family friendly policies and a more radical policy of equality between the sexes the legal dimensions of labour market change are also debated and the book explores the positive and negative sides of globalization and its links with technological change

each number includes reviews and book notices
