peter lombard is best known as the author of a celebrated work entitled book of sentences which for several centuries served as the standard theological textbook in the christian west it was the subject of more commentaries than any other work of christian literature besides the bible itself the book of sentences is essentially a compilation of older sources from the scriptures and augustine down to several of the lombard s contemporaries such as hugh of saint victor and peter abelard its importance lies in the lombard s organization of the theological material his method of presentation and the way in which he shaped doctrine in several major areas despite his importance however there is no accessible introduction to peter lombard s life and thought available in any modern language this volume fills this considerable gap philipp w rosemann begins by demonstrating how the book of sentences grew out of a long tradition of christian reflection a tradition ultimately rooted in scripture which by the twelfth century had become ready to transform itself into a theological system turning to the sentences rosemann then offers a brief exposition of the lombard s life and work he proceeds to a book by book examination and interpretation of its main topics including the nature and attributes of god the trinity creation angelology human nature and the fall original sin christology ethics and the sacraments he concludes by exploring how the sentences helped shape the further development of the christian tradition from the twelfth century through the time of martin luther

this book takes an easy to understand look at the statistical approach called the person centered method instead of analyzing means variances and covariances of scale scores as in the common variable centered approach the person centered approach analyzes persons or objects grouped according to their characteristic patterns or configurations in contingency tables the main focus of the book will be on configural frequency analysis cfa lienert and krauth 1975 which is a statistical method that looks for over and under frequented cells or patterns over frequented means that the observations in this cell or configuration are observed more often than expected under frequented means that this cell or configuration is observed less often than expected in cfa a pattern or configuration that contains more observed cases than expected is called a type similarly a pattern or configuration that is less observed than expected are called an antitype cfa is similar to log linear modeling in log linear modeling the goal is to come up with a fitting model including all important variables instead of fitting a model cfa looks at the significant residuals of a log linear model the book describes the use of an r package called confreq derived from configural frequency analysis the use of the software package is described and demonstrated with data examples

many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive we are republishing these classic works in affordable high quality modern editions using the original text and artwork

more than any other sport baseball has developed its own niche in america s culture and psyche some researchers spend years on detailed statistical analyses of minute parts of the game while others wax poetic about its players and plays many trace the beginnings of the civil rights movement in part to the major leagues decision to integrate and the words and phrases of the game for example pinch hitter and out in left field have become common in our everyday language from aaron henry onward this book covers all of what might be called the cultural aspects of baseball as opposed to the number rich statistical information so widely available elsewhere biographical sketches of all hall of fame players owners executives and umpires as well as many of the sportswriters and broadcasters who have won the spink and frick awards join entries for teams owners commissioners and league presidents advertising agents drafts illegal substances minor leagues oldest players perfect

games retired uniform numbers superstitions tripleheaders and youngest players are among the thousands of entries herein most entries open with a topical quote and conclude with a brief bibliography of sources for further research the whole work is exhaustively indexed and includes 119 photographs

this book provides one of the first interdisciplinary reviews of the relationship between services globalisation and trade liberalisation as we enter the twenty first century written by academics and policymakers it contains a detailed analysis of the characteristics of service trade and of recent and current service trade negotiations

the 3rd international conference on foundations and frontiers in computer communication and electrical engineering is a notable event which brings together academia researchers engineers and students in the fields of electronics and communication computer and electrical engineering making the conference a perfect platform to share experience f
