he also addresses the phenomenon of art critiques as a microcosm for teaching art as a whole and dissects real life critiques highlighting presuppositions and dynamics that make them confusing and suggesting ways to make them more helpful elkins s no nonsense approach clears away the assumptions about art instruction that are not borne out by classroom practice for example he notes that despite much talk about instilling visual acuity and teaching technique in practice neither teachers nor students behave as if those were their principal goals he addresses the absurdity of pretending that sexual issues are absent from life drawing classes and questions the practice of holding up great masters and masterpieces as models for students capable of producing only mediocre art he also discusses types of art including art that takes time to complete and art that isn t serious that cannot be learned in studio art classes

the apparently straightforward question can we teach children to be good cannot be properly understood without a great deal of careful thinking about the philosophical issues involved teachers and parents often assume that what the question means and how it should be answered are self evidently matters of plain commonsense but the dangers of such assumptions are laid bare by the probing approach of this book after reflecting on the terms goodness and teaching it proceeds to describe and critically examine a number of attempts to define the nature of morality in terms of its form or its content thereby teasing out the many conflicting views of moral education which follow from these theories no one account of morality or moral education is found to be wholly satisfactory and a synthesis is offered in the final chapter which suggests a variety of practical teaching strategies
