this provocative book explores the ideology of truth and deception in china offering a nuanced perspective on social interaction in different cultural settings drawing on decades of fieldwork in china susan d blum offers an authoritative examination of rules expectations and beliefs regarding lying and honesty in society blum points to a propensity for deception in chinese public interactions in situations where people in the united states would expect truthfulness yet argues that lying is evaluated

within Chinese society by moral standards different from those of Americans. Chinese, for example, might emphasize the consequences of speech. Americans, the absolute truthfulness, Blum considers the longstanding values that led to this style of interaction as well as more recent factors such as the government's control over expression. But Chinese society is not alone in the practice of such customs. The author observes that many Americans also excel in manipulation of language yet find a simultaneous moral absolutism opposed to lying in any form. She also considers other traditions including Japanese and Jewish that struggle to control the boundaries of lying, balancing human needs with moral values in contrasting ways. Deception and lying, the book concludes, are distinctively cultural yet universal, inseparable from what it is to be a human being equipped with language in all its subtlety.

This international book provides a series of viewpoints on academic integrity from the perspective of social sciences. It brings together multiple aspects of academic integrity but with the consistent theme of being at a level of analysis that considers people and their place in the world. It covers topics such as how academic integrity can be taught and why academic integrity breaches occur. This book informs the work of researchers, educators, and practitioners as we go forward in understanding academic integrity and addressing academic misconduct. The social sciences include academic disciplines such as sociology, economics, psychology, education, anthropology, political science, and criminology. Researchers and theorists in these fields offer a range of unique and valuable perspectives on academic integrity with questions ranging from why do students cheat and how best do we teach them not to to what are the societal and political implications of academic cheating.

argues that lying is fundamental to the survival of the human species through a series of philosophical, psychological, and cultural examples spanning different traditions and disciplines.
