nineteenth century writer karl may wrote novels about a fictionalized american wild west that  
count among the most popular books of german literature to this day his stories left an imprint  
on german culture resulting in a variety of wild west festivals featuring native americans and  
frontier settlers these karl may festivals are hosted widely throughout german speaking

countries today this book based on years of fieldwork observing and studying the festivals plays events and groups that comprise this subculture addresses a larger timely issue cultural transfer and appropriations are germans dressing up in american indian costumes paying tribute or offending the cultures they are representing avoiding simplistic answers a dana weber considers the complexity of cultural enactments as they relate both to the distinctly german phenomenon as well as to larger questions of cultural representations in american and european live performance traditions

this book contributes to global history by examining the connected histories of german and united states colonial empires from the early nineteenth century to the nazi era it looks at multiple and multidirectional flows transfers and circulations of ideas people and practices as germany and the us were embedded in and created by an interconnected world of empires this relationship was not exceptional but emblematic of the diverse entanglements that created colonial globality colonial entanglements between germany and the united states took on many forms but these shared and intersecting histories have been underanalyzed traditionally germany and the united states have been understood to have taken respectively an authoritarian and liberal path into modernity but there is no neat dichotomy as the contributors to this book illustrate there are many more similarities than have previously been appreciated and they are the result of multilayered entanglements made visible via conquest settler societies racialization and rule of difference building on present historiographies of empires colonialism and globalization this book introduces new analytical possibilities for examining these two relatively understudied empires alongside each other as well as at their intersections chapter 1 is available open access under a creative commons attribution 4 0 international license via link [springer com](https://www.springer.com)

adolf hitler is the greatest mystery of the 20th century and the mystery surrounding him

consists of two unanswered questions that have baffled biographers and historians first how did he ever rise to power second who was he really hitler had the power to mesmerize crowds as the most dynamic orator of the modern age yet his power was not in his ideas which he collected from the gutter sheets of vienna nor was it in his personality his biographers describe him as an unperson and his character as a void and a black hole what then was the source of his power was he a medium or a magician with paranormal powers as many contemporaries thought or did he have a secret or method that has not yet been revealed ben novak spent fourteen years searching for the secret of hitler s political success and his power as a speaker hitler s most astute contemporary observer konrad heiden who wrote the first objective books on hitler warning that this man was the greatest massdisturber in world history suggested that hitler s secret lay in his use of eine eigentiimliche art von logik or a peculiar form of logic beginning with this clue novak finds that there is a new form of logic in accordance with heiden s description and examples that can explain hitler s phenomenal political success this new form of logic called abduction was discovered by an american philosopher charles sanders peirce 1839 1914 who is rapidly becoming america s most well known philosopher and logician abduction is a third form of logic in addition to deduction and induction unlike the other forms of logic abduction is based on instinct and has a power over emotions novak argues that hitler was the first politician to apply the logic of abduction to politics this book provides the first coherent account of hitler s youth that ties together all the known facts clearly showing the genesis of the strangest and most terrible man of the twentieth century while identifying the power he discovered that allowed him to break out into the world in such a terrifying way

this book demonstrates how the two adversaries of the cold war west germany and east germany endeavored to create two distinct and unique german identities in their endeavor to claim legitimacy the german cinematic representation of the american west became an important cultural weapon of mass dissemination during the cold war

more copies of this german tale of the american west have been printed than any other novel in german publishing history this lively english translation of the daring adventures of old shatterhand and the apache chief winnetou puts the best known work by karl may 1842 1912 into the hands of an american audience for the first time in paperback

a collection of articles published previously discussing the growth of radical nationalism and fascism since the end of the 19th century and focusing on its expression in literature and in the arts the following discuss antisemitism as well

Eventually, **Winnetou Und Old Shatterhand** will unconditionally discover a other experience and success by spending more cash. yet when? do you say you will that you require to acquire those all needs in the same way as having significantly cash?
