meltdown is the riveting inside account of an american diplomatic disaster when george w bush took office in 2001 north korea s nuclear program was frozen kim jong il had signaled to the outgoing clinton administration he was ready to negotiate an end to his missile program today north korea has become a full fledged nuclear power with enough fissile material to stage an underground test in 2006 manufacture as many as ten more warheads and in the worst case scenario provide nuclear material to rogue states or terrorist groups how did the united states fail to prevent a long standing adversary like north korea from acquiring nuclear weapons drawing on more than two hundred interviews with key players in washington seoul tokyo and beijing including colin powell john bolton and ex korean president kim dae jung as well as insights gained during fourteen trips to pyongyang longtime cnn correspondent and north korea expert mike chinoy provides a blow by blow account that takes readers behind the scenes of secret diplomatic meetings disputed intelligence reports and washington turf battles as well as inside the mysterious world of north korea meltdown shows how the u s refusal to engage in serious diplomacy spurred kim jong il to stage his nuclear breakout and provides a wealth of new material about the subsequent reversal of course that led the bush administration to abandon confrontation in the hope of negotiating an end to the nuclear crisis chinoy has produced a gripping account of one of america s longest running most volatile foreign policy crises that explains why north korea remains a danger today and why it didn t have to be this way

this book chronicles the political military development of the korean peninsula since 1945 with particular attention to north korea s pursuit of nuclear technology and nuclear weapons and how it has shaped northeast asian security and non proliferation policy and influenced the strategic choices of the united states and all regional powers i focus on north korea s leaders institutions political history and the system s longer term prospects how has an isolated highly idiosyncratic small state repeatedly stymied or circumvented the policy preferences of much more powerful states culminating with its withdrawal from the non proliferation treaty the only state ever to do so and the testing of nuclear weapons in open defiance of adversaries and allies alike what does this portend for the region s future unlike most of the literature that focuses on us non proliferation policy this is a book about decision making in north korea and the state s survival in the face of daunting odds it draws on extensive interviews with individuals in china south korea japan russia and the eu who have had ample experience in and with north korea additional interviews with former us policy makers and the results from two visits to the north the author makes extensive use of archival materials from the cold war international history project enabling a far fuller rendering of north korean history than appears in most of the literature on the north korean nuclear weapons issue provided by publisher

explore north korea one of the most secretive countries in the world this thoughtful book provides a concise introduction to north korea two leading experts kongdan oh and ralph hassig trace the country s history from its founding in 1948 and describe the many

facets of its political economic social and cultural life the authors illuminate a hidden nation dominated by three generations of the secretive kim regime a family dynasty more suited to the middle ages than the contemporary era north korea has a robust if outmoded military force including a growing arsenal of weapons of mass destruction to deter and defend against foreign attacks and to maintain independence and isolation from the rest of the world the struggling economy disconnected from the global marketplace operates under harsh international sanctions all north koreans from the highest party cadres to the youngest children living in prison camps are essentially servants of the leader despite kim jong un s despotic control the authors argue that north korea cannot continue on its current path indefinitely kim treats even his closest associates harshly and the gap is widening between his elite supporters numbering a million or so and the other twenty four million north koreans the economic and technological gap between south korea and north korea is increasing as well and younger people are becoming disenchanted as they gradually learn more about the outside world

in the impossible state seasoned international policy expert and lauded scholar victor cha pulls back the curtain on provocative isolationist north korea providing our best look yet at its history and the rise of the kim family dynasty and the obsessive personality cult that empowers them cha illuminates the repressive regime s complex economy and culture its appalling record of human rights abuses and its belligerent relationship with the united states and analyzes the regime s major security issues from the seemingly endless war with its southern neighbor to its frightening nuclear ambitions all in light of the destabilizing effects of kim jong il s death and the transition of power to his unpredictable heir ultimately this engagingly written authoritative and highly accessible history warns of a regime that might be closer to its end than many might think a political collapse for which america and its allies may be woefully unprepared

the institute for unification education which constitutes the ministry of unification of the republic of korea has published annual editions of understanding north korea since 1972 as an endeavor to promote greater understanding of north korea for south korean readers understanding north korea depicts the reality faced by the northern regime in areas of politics diplomacy military economy society culture and many more the may 2012 publication has been translated into english with the aim to help the international community better understand the northern half of the korean peninsula english translations of the referred editions will be published on an biennial basis we hope that this book enables readers around the world to better grasp the reality of north korea the regime in north korea exhibits three characteristics it is a totalitarian dictatorship governed by the sole leadership of the sury ng who stands above the workers party of korea wpk and the state the regime as one of the world s most highly centralized and planned economies has advocated self reliance and the monopoly of all means of production by the state and cooperative organizations and the state uses the concept of grand socialist family which requires absolute obedience of people to the sury ng who is considered the father of a family these traits engendered a peculiar form of social structure unprecedented in any other socialist country as it had to do under

kim jong il north korea under kim jong un must engage in some degree of reform and opening to improve its economy and ensure the regime s survival such a path however also brings with it the risk of regime collapse the regime thus faces the difficult task of maintaining stability while at the same time reforming and opening up contents i how should we view north korea section 1 nature of the northern regime 11 section 2 north korea s dilemma 18 political system and governing principles section 1 history of the north korean regime and establishment of its political system 25 1 soviet occupation and establishment of the north korean regime 25 2 establishment of north korea s political system and its characteristics 28 section 2 formation of governing ideology and its changing nature 36 1 juche ideology 37 2 songun ideology 42 3 kimilsungism kimjongilism 46 section 3 power structure and form of government 49 1 power structure 49 2 workers party of korea 55 3 central institutions 71 section 4 hereditary succession of power and the kim jong un regime 80 1 history of hereditary power succession 80 2 establishment and stabilization of the kim jong un regime 86 external policies and relations section 1 goals and directions of foreign policies 97 1 basic ideas and goals of foreign policy 97 2 policy directions 99 3 north korea s foreign policy making structure 102 section 2 changes in foreign policy 105 1 foreign policy during the cold war era 105 2 foreign policy after the cold war era 111 section 3 foreign relations 117 1 us north korea relations 117 2 china north korea relations 127 3 japan north korea relations 132 4 russia north korea relations 137 5 relations with the eu and other nations 141 military strategy and capacity section 1 characteristics and functions 153 1 establishment of the kpa 153 2 nature and status 155 3 functions and characteristics 156 section 2 military policy and strategy 160 1 basic objective 160 2 military strategy 163 section 3 structure and institutions 168 1 military structure 168 2 military institutions 173 section 4 military capacity 179 1 standing forces and equipment 179 2 reserve forces 185 3 development of nuclear and other strategic weapons 187 section 5 military relations and provocations against the south 194 1 external military relationship 194 2 north korea s provocations against the south 199 economic structure and policy section 1 characteristics of economic system and basic economic policy 217 1 basic characteristics of economic system 217 2 basic economic policy 225 3 establishment and implementation of economic plans 234 section 2 economic status by sector 238 1 macroeconomic status and tasks 238 2 economic status and tasks by sector 244 section 3 changes in economic policy and outlook for reform and opening 259 1 utilization and control of markets 259 2 limited opening 268 3 prospects and tasks for reform and opening 274 education and culture section 1 education system and school life 281 1 education policy and school system 281 2 educational curriculum and methods 299 3 school life 308 section 2 literary art policy and current status 314 1 literary art policy 314 2 current status of literature and art 321 section 3 the media and its functions 334 1 newspapers 335 2 broadcasting 340 vii society and life section 1 class structure 349 1 social classes 349 2 social mobility and class structure 353 section 2 value system and everyday life 356 1 north korean citizens values 356 2 daily life and life cycle 362 3 organizational life 366 4 clothing food and housing 373 5 leisure and holidays 380 section 3 religion in north korea 386 1 view on religion 386 2 actual conditions of religious beliefs 388 section 4 deviations and social control 391 1 social deviation and crime committed by north koreans 391 2 social control 398 section 5 human rights in north korea 404 1 violation of civic and political rights 405 2 violation of economic social and cultural rights 410 3 response to criticism on human rights 413

a major new history of north and south korea from the late nineteenth century to the present day cha and pacheco pardo have years of expertise in korean international relations a crisp and balanced account christopher harding the telegraph korea has a long riveting history it is also a divided nation south korea is a vibrant democracy the tenth largest economy and is home to a world renowned culture north korea is ruled by the most authoritarian regime in the world a poor country in a rich region and is best known for the cult of personality surrounding the ruling kim family but both koreas share a unique common history victor cha and ramon pacheco pardo draw on decades of research to explore the history of modern korea from the late nineteenth century japanese occupation and cold war division to the present day a small country caught amongst the world s largest powers including china japan russia and the united states korea s fate has been closely connected to its geography and the strength of its leadership and society this comprehensive history sheds light on the evolving identities of the two koreas explaining the sharp differences between north and south and prospects for unification

north korean foreign policy security dilemma and succession by yongho kim starts from the point of view that north korea s provocations have been motivated more by fear than by her in born provocative nature kim argues that north korea s provocative foreign policy reflects its threat perception stemming from various security dilemma and a very real concern regarding another father to son succession this volume views north korea s external and domestic threats as causes and its provocative foreign policy as an effect of the causes the security dilemma has impelled north korea to generate and thus portray to the world provocative signals and the ever pressing issue of kim jong il s succession has driven him to prioritize his own political survival over that of north korea s state survival unless kim jong il s political survival is guaranteed north korea will not be interested in full scale introduction of capitalist way of economic reform and economic package promised by the united states and south korea in return for the abandonment of their nuclear program north korean foreign policy suggests that an effective policy for countries relating to north korea whether dovish or hawkish should deal directly with kim jong il s political survival and not with pyongyang s failed economy

north korea s brinkmanship diplomacy has continued to disturb the world with its seemingly reckless missile testing as the country s leader kim jong il is rumored to be terminally ill with pancreatic cancer north korea appears to be in a state of serious internal crisis not only because its dictatorial system albeit skillful and ruthless leadership is inherently unstable if not skillful and ruthless leadership but also because the main pillar of kim jong il s legitimacy is rapidly eroding due to both mass starvations and the exodus of grassroots and mass exodus of the north korean people into nearby regions the main objective of this book is to explore the probability of north korea s implosion and second to search for a feasible way for korean reunification as a possible consequence of a big bang event on the peninsula the geopolitics of the korean peninsula is historically very complicated as korea is bordered and surrounded by four big powers namely china russia japan and the united states each country has its own varying degrees of political economic and military stakes with respect to the korean peninsula thus the land of the morning calm has remained divided since 1945

mainly as a result of the domain war among these super powers as the north nears a turning point however there is a new possibility for the two koreas to reunite if the international environments work in their favor and if both countries are well prepared to assume reunitation

details the development of north korea s intelligence organizations and their involvement in terrorism and covert and special operations on the korean peninsula and throughout the world the book is divided into geographic chapters covering the americas europe africa 2 and asia
