history is not just about books it influences our identities reminds us of our past and shapes who we are it is still clear in nepal where nepali society has been formed by combining countless languages cultures and lifestyles our indigenous communities have carried their traditions for thousands of years but that knowledge and those song story rituals have largely disappeared some are lost some are mixed with other religions and cultures and some are left in pieces it is this silence that this book seeks to speak of in forgotten songs and lost identities an investigation of indigenous experiences it s not just a myth or a passionate reminder the piece represents decades of research that has incorporated oral interviews field visits old relics and voices of the elderly in the community this work demonstrates that to know our origins we need not only to read the state written history but we also need to hear the voices that are buried in this earth nepal s history is often written from the point of view of power he who had the kingdom in his hand used a pen in the process indigenous traditions were interpreted as backward mixed with powerful religions or completely erased the gods of kirat were sometimes associated with shiva and sometimes with buddhist or christian traditions the names and meanings of the local holy places changed this change undermined not only religion but also the entire cultural identity losing identity also results in the loss of self esteem memory and the ability to shape the future three parts comprise the book the first part deals with the relationship between the bon religion and the kirat tradition this shows that nepal s civilization is not only the result of aryan culture its roots are even older words and language serve as evidence of this the second part is about transformation and resistance from the lichchavi period to gorkha unification the kirat identity was suppressed but not completely lost oral narratives old relics and community struggles show that even before hinduism or buddhism came local communities had their own sacred geography the resistance of the limbu community in particular shows that preserving culture is not only about preserving songs it is also about protecting lives the third section is about colonial free thinking this indicates that the contemporary native people are recovering their identities they are redefining their names in a fresh and innovative manner even other limbs have started concentrating on yakthung as an identity rather than kirat much has been said about how this situation came up there are disagreements and debates a significant struggle exists in balancing the preservation of a fundamental identity with the acceptance of a shared history the book attempts to discuss and conclude the two ideas what makes this research special is not just

facts but hidden emotions in it when the old people of the village remembered the old songs or told them the customs they felt the pain of the injuries they had suffered the memory was not just an individual but a collective wound as i wrote the author experienced a sense of not only conducting research but also preserving cherished memories ultimately this book stands on the foundation of both remembrance and solicitation the history of nepal is not only aryan hindu buddhist or christian but also that of indigenous peoples and the request is that we all remember and think of it anew and share the chance of making a future the lost songs continue to resonate in the air the lost identities are still alive in resistance and somewhere they are struggling the question is simply are we ready to listen to them
